MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

When the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

Mortgages against 23d and 24th Ward property will be found altogether at the foot of this list.

Mortgages under this head marked with * denote that the property is located in the new Annexed District (Act of 1895).

JUDGMENTS.

In these lists of Judgements the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means jugment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week, and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

*Editor Record and Guide:

The lien which was filed by our firm for $600 against Mr. Thomas K. Moore and his property on the south side of 111th street, near 7th avenue, on December 12th, 1898, was filed inadvertently, and will be removed. Our contract was for furnishing the gas fixtures to said premises, and the work had neither been completed, nor is any payment due us from Thomas K. Moore until the work is finished. BUILDINGS PROJECTED.

THE LAWS AFFECTING BUILDING.

There has not been any book on the market containing all the laws and regulations relating to building in New York City; yet the need of such a volume is plain enough, because a building from its foundation to its final demolition is subject not only to the building law, but to special regulations of the building department concerning passenger elevators, fire-escapes, light and ventilation and plumbing. There is also a law limiting the height of dwelling houses and another requiring temporary flooring. There are the tenement house and lodging house laws, laws relating to the extinction and prevention of fires and explosives, and the storing of combustible materials in buildings. Moreover, there are very important fire department regulations which must be observed in the installation of electrical apparatus, and there are, of course, all the regulations of the department of public works concerning Croton water rates and the use of water, the opening and refilling of trenches and restoring of street pavements; in addition to ordinances pertaining to the inspection of steam boilers. The architect, builder, building material man and real estate owner must be familiar with these laws and regulations; if he is not, he suffers. They are now all gathered together (with a directory of architects) for the first time in one volume, illustrated, indexed and supplied for $2.50. Record and Guide, Publishers, 14 and 16 Vesey street.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

MURESCO!

It is a permanently hard wall finish. Over plaster it produces soft, even tints, giving the effect of kalsomine, without the flashing, with none of its disadvantages. It does not rub off against the clothing; will not crack nor peel. It will kill suction, and give a smooth, soft, even coat over an old plastered wall that has been patched. It comes in fifteen artistic colors and white.

You may have a color card and full information about Muresco for the asking.

Appended quotations are based almost wholly upon prices obtained for goods from first hands. Yard rates necessarily range much higher owing to the expenses attending sorting out and grading cargo and even car lots, besides which must be added the cost of handling and carrying until consumers are ready to invest. Terms of sale also prove important factors, and altogether it is impossible to give a line of retail quotations thoroughly reliable in character.

"Entered at the Post Office at New York, N. Y., as second-class matter."

Vol. LXII. DECEMBER 24, 1898. 1,606

WAS there ever anything like the enthusiasm that prevails in Wall Street? Probably no one, not even the most ancient of the habitues of the street, can recall a similar occasion, when one distinct buying movement had gone on for months without break, and was as buoyant as ever on the eve of a somewhat extended holiday season. Even the movement of 1885-6 was not as extended and persistent as this. Not only are there new issues coming to the front, but new movements are being engineered in the old ones, the Granger stocks for instance, that were the first to discount the improvement in the situation and were supposed to have benefited as much by it as their merits warranted. The secret of the whole matter, if there is any secret about it which is very doubtful, is the abundance and cheapness of money which has become less profitable to hold than stocks, even those whose chances of permanently keeping the positions they have recently gained as dividend payers are by no means assured. It is owing to this abundance of money that the talk of a Russian loan has arisen. Perhaps the fact that Russia is the most enterprising beggar in the world has also something to do with it. Having worked London, Paris and Berlin successively and successfully, it is not unlikely that she has been attracted by the sight of our bursting coffers. It is doubtful if the Russian three per cents could compete against our own issues and it would be an altogether too startling evidence of the growth of wealth here and of our trade abroad if we began now, when both are so young, to accept foreign securities in settlement of our balances abroad. However, there is no resisting the optimistic feeling which has been aroused in the minds of people having money to invest or to gamble with; at the moment, there is nothing to do but go with the tide, bearing in mind, however, no matter how far quotations are carried up, that events will subsequently bring values down to intrinsic levels.

PROBABLY the subject of highest political importance discussed by the British press in the past week or two is that of the Clayton-Bulwer treaty. Judging by such expressions as have reached this side of the Atlantic, British commercial interests would be glad to see the United States Government undertake the work of building the Nicaragua Canal and to that end would endorse the modification, and even abrogation under conditions for equal use of the canal when built, of the treaty. It is very doubtful, however, if those same commercial interests would like to see their Government burden themselves with the financial obligations that the fathering of the canal would involve. It is fair to say, however, that whoever the builder of the canal may be, if it ever can be and is built, the chief contributor to its revenue will be the British shipper. There is no change in the European industrial or commercial conditions since last week, except perhaps that the iron industry in all its branches shows some increase in activity. In France the provincial returns of the vintage are not favorable, though the quality of the wine is good and the alcoholic strength superior to that of last year. Berlin is reported to be borrowing largely from London and, through the latter from New York. The statement of the Imperial Bank shows a considerable loss of metal and a large proportionate increase in discounts compared with the close of last year. These facts show that this centre will still bear watching, though it is reasonable to expect that the precautions taken will tide the business community into the New Year without serious trouble. The Imperial budget for 1899 provides for an increase in expenditures of about $28,000,000, of which nearly half is for the army and navy. Business in Vienna and Buda-Pesth continue to be swayed according to whether the indications at the moment point to a closing or a widening of the differences between Austria and Hungary on the States Treaty. Chilian finances have been improved by the fact that extraordinary military and other expenses have been rendered unnecessary owing to settlement of the boundary dispute with Argentina; for the same reason it may be taken that the latter also experiences some pecuniary relief. Statistics relating to the movement of population in France show that in 1897 there was an increase of 1,8088; the decrease in births continued by 6,419, but there was also a decrease in deaths which created the favorable balance. France stands alone among the great Powers of Europe for a decreasing birth rate. A comparison between the decennial periods 1840-70 and 1881-90, shows that in Germany, Austria, and England it remained stationary, at an average of 38 per thousand inhabitants. That of Italy arose from 37 per thousand in the former period to 38 in the latter; Russia has an annual increase of a million and a half in her population, while in France the rate of 27 per thousand in 1841-50 has declined to 24 in 1881-90, and was under 22½ in 1897.

"EXPAND: EXPEND"

"IF the durned things would only talk," as a perplexed statistician once exclaimed, "how interesting figures would be!" Secretary Gage must have felt this when trying to draw something articulate out of the long columns of ciphers which he recently presented to Congress, as a statement of the nation's finances. To the reader, too, who glanced over them in his morning paper, some thought of a similar sort must have occurred. The "durned things" remained so obstinately mute. And yet at this juncture of our country's history how eloquent and decorative they might easily have been if only the power of speech were theirs! Indeed, it is most astonishing that the significance of these statistics has been so entirely missed, for they indicate in a most pointed and unmistakable manner the enormous strides civilization is making with us and how little the Obstructionists to the progress of their country have to hope for.

Let us abstract one or two items from Secretary Gage's report. In 1897, the ordinary expenditures on account of the Military Establishment were roundly $49,000,000; in 1898, they were $92,000,000, an increase of about $43,000,000. The Naval Establishment in 1897 cost $34,500,000, and in 1898 nearly $59,000,000, an increase of $24,500,000. Pensions, too, toddled up serenely after their fashion, from $141,000,000 to $141,500,000, some six and a half millions more. These three items, then, give us for 1898 a total of nearly three hundred millions, and we are told the estimates for next year increase these expenditures to over four hundred and fifty millions!

We can hardly imagine a Patriot and a Christian reading these trumpet figures without a cry of exultation, particularly when he recalls as recall he must that this is merely the beginning of our national tribute to the "forces" of civilization. We know, for the multitude, unfortunately, Patriotism cannot bring other rewards than a glowing consciousness of great things shared in; but any homely taxpayer who doesn't derive satisfaction from these expenditures must be hard to please. The ordinary man, however, who is neither a Mugwump, nor a Puritan, nor an ridiculously Cultured Person will surely recognize that he is getting his money's worth and will be fully content we are persuaded with Secretary Gage's report, unless his eye happens to see, after reading these figures, that the expenditures on account of the Smithsonian Institution were increased four hundred and sixteen dollars in 1898, or to be precise, from $127,551 to $127,968. This may seem like "rubbing it in"—taking an unwarranted advantage of a liberal purse. Because a free handed and wealthy nation is willing to spend one hundred and fifty millions extra for civilization, that is no reason why a government should furtively contribute four hundred additional dollars to Science. Practical people, who are not easily fooled, will possibly regard this as pandering to culture, and we all know that if ever there is a rift in the flute of national greatness it will be culture that will cause it. Of course the few who take stock in culture, peace and ploughshares, who refuse to recognize that war is a Christian and manly discipline would delight to see that four hundred and fifty millions spent on libraries, institutes and technical schools and only the 416 additional dollars on the Military and Naval establishments. But, think of a country given up to that sort of policy! What kind of civilization would it have! What a spectacle of imbecility it would present to the world in the closing years of the twentieth century!

Of course, there is not the slightest chance that any misfortune of that kind will overtake us. We have outgrown most of the namby-pamby ideas about peace that disfigured the conception in which the founders of this nation formed of its "Destiny" in the world and its "Duty" to Humanity. The terrific spectacle of armed Europe is become more attractive to us than the homelier aspirations of our own forefathers. Four hundred and fifty millions a year for army, navy and pension would rather startle those old fellows—almost as much as it does a few of our citizens to-day who believe that all people's watches run alike though

they don't all simultaneously record the same hour. These people assure us that we positively will not be able to stand still with these military appropriations of ours; that one step will entail others and that in time this country will be driven into camp as the European nations have been. It was only in Napoleon's time, they point out, that the idea of conscription arose. See what it has become. Every man, woman and child to-day, in this country contributes almost, if not quite, seven dollars a year to war. How much will it be ten, twenty-five, or fifty years hence?

Who cares? The soldier doesn't, for his ideal is "the supremacy of the military arm" as they say to-day in France. The politician doesn't, for he believes in increasing governmental expenditures. The crowd don't because they believe the American people have taken out a patent in Washington which spares them the evil experiences that have afflicted all other nations who have done the things we are now doing. With this patent we shall not sow what we reap as others do, and the policy and ideals that pinch even the poverty of the European peasant will bring us happiness and prosperity.

"Expand, ixpend. It's a joke, and I med it myself," said Mr. Dooley, and in this Mr. Dooley merely took his words out of the mouth of the American people.

NEW life has been infused into the rapid transit project since the sensible conclusion has been adopted that private capital must be called to its aid. The Rapid Transit Commission has decided to apply to the Legislature for power to build the underground rapid transit railroad through private means, and the City Hall has intimated that it will assist a movement to that end. Moreover, the voice in municipal affairs that is listened to with most respect for the moment has prophesied that the work will be begun before the term of the present administration has expired. These things have raised up numerous reports of the formation of combinations of capital to carry out the work, but they may be dismissed as premature. So far all that has been done, and this is by no means little towards the consummation of this much desired improvement, is the finding of a base upon which conflicting interests, which hitherto have neutralized each others endeavors, can work in agreement. But the building of a rapid transit railroad by private capital, while more likely to be ultimately successful, is a very different thing to building with municipal funds. The natural fear raised is that those who supply the capital will not be content to wait for their profits as the municipality would and could afford to be. Consequently, instead of a railroad being cut from the southernmost point of Manhattan to its northern suburbs as one operation, we may expect to see, even if the franchise is given in the first place as an entirety, the best pieces of the road built first and the others left to await the results of their operation. It should be understood, therefore, that those who have the shaping of the legislation that has now to be obtained, should be more than ever impressed with the fact that is is fast travel through the entire limits of the boroughs of Manhattan and the Bronx that is wanted, that their efforts should be directed to secure this and to prevent the possibility of the whole matter resulting in a distribution of franchises for pieces of railroad out of which large and immediate profits can be made and the rest abandoned indefinitely. This would be worse than nothing at all. If the underground railroad is to be built at all it should be only on a basis mutually profitable to capital and the community. If it cannot be built upon that basis it had better not be built at all. With due regard to the encouragements that must be offered to induce private capital to enter the enterprise, it ought to be on generous lines and designed to satisfy the wants that give it its raison d'etre.

NOT only in rapid transit but in many other directions is there evidence of new life in our midst. The improvement in the realty and security markets, in which are massed a great many contributing causes, have received appropriate treatment from time to time in these columns. Outside of those there are other separate and individual indications of a revival of activity in this great industrial and commercial community. One of these indications is the strengthening and sharpening of the demand for improvements necessary to our development. A strong delegation of our citizens has just been to Washington to insist upon the deepening of the channels of approach to the harbor and the moving spirits in the Bronx are ably urging work upon the waterways in the northern part of the city, which the growth of trade and manufactures there make absolutely necessary. The acquisition of the poor old decayed Fifth Avenue stage line and its certain galvanization into usefulness by its new and active owners, is one of the smaller things that show the awakening of the community to a bettered state of things. There is, too, a more generous recognition of the assistance given by corporate organizations to general development. This is shown in the readiness with which the suggestion of building the rapid transit railroad by private capital has been taken by a community that, hitherto, has seemed to be nailed to the municipal ownership idea, and in the generous support given by property owners and others, at official hearings, to applications for the extension of surface railroads. These things all contribute to show how widespread is the conviction that an era of extended commercial prosperity has begun.

IT is proper to call attention to the risks property owners run in granting privileges to telephone and electric light companies to pass through their property. It appears that one of these companies is running bunches of wires in leaded cables through private property, yards, etc., in Madison avenue and west towards 5th avenue. It is claimed that by allowing these wires to be put in in this way, the owners of the property affected are endowing the company with an easement and subject to which only can title be given. The case is hardly as bad as that, because, according to the opinion given by Mr. Simon Sterne, who has been interviewed upon the subject, it takes twenty years to fasten the easement upon the property. This is, presumably, twenty years undisturbed use of the yard or other portion of the premises. The consents given by the property owners are revocable on ninety day's notice, and this condition is relied upon to prevent the making of an easement impossible. But when once the work is done the property owner is very likely through carelessness or ignorance to sleep on his rights and he or his heirs or assigns may at a later date find that the permission given many years previously, with the idea of allowing a temporary privilege only, has created a permanent obstacle to improvement and perhaps to sale. The fact that the provision for preventing the creation of an easement was not enforced, would probably be considered evidence of an intention to allow one to be created. A good rule in this and all similar cases would be not to grant privileges except under competent advice and after a careful consideration has safeguarded the rights and interests of the grantor.

IMPROVEMENTS IN THE REGISTER'S OFFICE.

As it is now nearly a year since Mr. Isaac Fromme took charge of the Register's office, with the avowed intention of making that office of greater use and convenience to the legal profession and real estate interests generally, it is timely to ask how he has carried out that intention. Mr. Fromme's legal experience and the perception of practical results to be arrived at, naturally caused a good deal to be expected of him in that direction. A visit to his office and an examination of its details will show that he has fully answered every expectation. He has, in fact, practically reorganized the office so as to make it thoroughly efficient, and at the same time has kept the working force together and infused a spirit of concord into it that not only benefits it but makes it in the highest degree serviceable to the public. The changes made in the way of doing business in this office are so important that a knowledge of them cannot fail to be useful to real estate interests, both professional and lay.

Comparatively few people, even among those who make use of the Register's office, are aware of what a paper has to go through between the times when it is handed in by the lawyer's clerk for record, and when it is returned to the office from which it came. On the surface this may seem to be a very simple operation, but in fact it is quite an intricate one, as the following description of the process, which is an official recital, will show, and which it is desirable that people doing business with this office keep for future reference:

When an instrument is offered for record in the Register's office it is presented at the desk to a clerk, who examines it carefully to ascertain whether it is properly executed and acknowledged. He also ascertains the number of words and charges the fee for recording accordingly. It is then taken in hand by the clerk who has charge of the cash book, who enters the fee in said cash book; from thence it is entered in the grantee book and indexed under the name of the grantees. It is then entered into the tickler. There are 29 ticklers, 13 each for conveyances and mortgages, 1 for each section; 2 for the annexed territory; 1 for miscellaneous. It is then taken upstairs to the record room, where it is assorted, examined and verified, and next given to the recording clerks, who record it, and return it to the record clerk. It is then taken in hand by the examiners who compare it carefully. When examined it goes to the index room to be indexed. It is then returned to the record clerk, who has it sealed ready for signature. It is then sent to the Register to be signed. When signed it is handed to the delivery clerk, who checks it off in the grantee book and it is then handed to the custodians or messengers to be returned to the person at whose request the paper was recorded.

It must be understood that the Register's office is a ministerial and not a judicial office. The Register has to comply with the requisition on the back of a paper sent in for record; consequently, if the section and block numbers on the paper were wrong, it was the practice to send a letter to the lawyer who filed the paper advising him of the mistake, and informing him that on payment of 25 cents a correction would be made. Mr.

Fromme held that the record of the instrument with the wrong section and block number was a menace to the honest property owners and dealers in not being a notice to subsequent lienors. A dishonest mortgagor or grantor might execute another mortgage or deed which might be recorded in the correct section or block number before the first correction was made. Accordingly, he adopted the rule of recording such an instrument in the first instance in the correct section and block number to save trouble, erasures, to prevent fraud, and to accommodate members of the bar who are searching titles, and who, otherwise, would naturally find a break in the chain of title. Then, instead of sending notice to the man who made the mistake, to save postage stamps to the county, he simply holds the paper subject to the charge of 25 cents. The man who has made the error will naturally inquire the cause of the delay in returning the paper when he receives other papers of subsequent dates and will then be informed that the paper is held subject to this charge. The public is not inconvenienced by any delay of any lawyer in paying the amount required by law for the change in section and block number.

The most important improvement in the office has been achieved through the introduction of a corps of six draughtsmen, whose exclusive business it is to copy the mutilated maps in the office, some of which are unrecognizable, being mere rags with only a patch here and there of the original paper surface on which the map was printed and need the most skilful and experienced draughtsmen to reproduce them. This work is being most admirably done. The new maps are on tracing paper with all the boundary lines and other data clearly defined, and a comparison of the originals with the copies brings out clearly the excellence of the work, as well as its difficulties, and, too, the immeasurably greater assistance rendered by the new in the work of reference and search. Another important improvement is the indexing of all miscellaneous instruments, which were heretofore indexed in a large number of books, in one general index, arranged in such form that it saves very much time in making, and simplifies searches. All papers and indices have been brought right up to date. Uniformity in the recording of papers is secured by having all recorded by typewriting machines, directly into the book; these machines are also even used for indexing. Special attention is also given to cases in the courts where a large number of books of record are required. The lawyer need not trouble himself about having the records in court until his case is actually on trial, for as fast as he requires them they are produced under one subpoena, and at short notice. Mr. Fromme has also introduced the system of granting to any lawyer, on application, a special pass, which permits him to examine the records before and after office hours, any time of the day or night, and on holidays. He found that it cost the Register's office $300 a year for postage, and adopted the rule that if any one sent a communication to the Register which required an answer, unless postage stamps were inclosed, it should not be noticed. In that way he has been able to save enough maney from his contingent fund to put in an extra telephone for the exclusive use of members of the bar. This telephone is 1926 Cortlandt. Any member of the bar, while engaged in working in the Register's office, can either call up his own office or be called up thence. One of the custodians, on receiving a summons, will call the lawyer wanted to the telephone.

The process of raising the efficiency of the staff has been most thorough. Heads of departments have been made accountable for the proper conduct of their several departments. Entries are made every morning of the number of papers delivered and to be delivered. They are made also frequently during the day. As many as from 150 to 300 are delivered daily. All this has been brought about without change in the staff in the office which is composed of old-timers, who are most competent and efficient clerks. The clerks of the various departments are required to help each other whenever it is necessary, irrespective of their special or particular work. If one, two, or three clerks are taken sick, there is a sufficient number ready at a moment's notice to take their places, so that the work of the office moves right along, and the public is in no wise inconvenienced. The new arrangements entail no extra work upon the employees; on the contrary, they are now through each day by 4 p. m., whereas they were formerly obliged often to stay several hours beyond the usual hour of leaving. The additional work, so far as copying is concerned, is hailed with delight by the folio writers, who are paid five cents per hundred words, consequently the more work they have to do the more money they make; writers who heretofore made from $20 to $35 a month now earn from $60 to $100 a month.

The practical results of this work of reorganization, appear in the fact that, whereas formerly it required from six to eight weeks to record and deliver a document, now any paper can be recorded and returned within 24 hours. Referee deeds in foreclosure and partition are returned the same day that they are offered for record. Lawyers appreciate the importance of this. If anybody desires a paper expedited it will be returned within an hour of its record without extra charge. The quickest time of record under the last arrangement was in the case of C. G. Braxmar, of No. 10 Maiden lane, who desired a paper returned without delay. It was recorded at 3.30 p. m., and was delivered in his office at 4.05 p. m. of the same day. It was formerly the case that mortgages for which satisfaction pieces were delivered in the Register's office and paid for would not be discharged of record for four months; to-day, every satisfaction piece that is handed in into this office is recorded the same day and on the margin of the original record stamped as satisfied, with reference to the book and page of the discharge. This is a great convenience to lawyers examining titles. All papers offered for record before 12 noon, of every description are returned the same day, even out of town lawyers are well looked after; in one case eighteen instruments which were sent for record from Westchester were received, returned by the sender on the evening of the day of their record. Great improvement has also been made in getting certified copies with expedition. Before the typewriters were in use it required from seven to ten days to fill a requisition for a certified copy of an instrument. Now a lawyer may put in a requisition at any time during the day and have it returned to him the same day.

The Register is unstinted in his commendation of the zeal and efficiency with which he has been supported by all his subordinates, without exception. In this connection he makes special mention of William S. Sexton, his private secretary; John Von Glahn, deputy register; John E. Fitzgerald, assistant deputy register. He similarly distinguishes Frank P. Young, head of the satisfaction department, and E. T. Egbert, of the same department. James A. Hanley, cashier; Patrick Glennon, head of the mortgage department; Eugene Reilly, head of the indexing department; John Prendergast, head of the mutilated records department; John P. Trainor, head of the map department; Messrs. O'Connor, Brennan, Boyle and Keech, searchers and examiners; Andrews, Murtha, Smith and Coyne, readers and examiners; Michael Grady, William Sinnott, McKenna and Isaacs, clerks; Jurgen Johanson, head of the folio department; William Crosby, chief clerk, Benjn. W. Barlow, who has charge of the delivery clerks, and Philip Welch, chief custodian.

The ready efficiency of the staff, together with the aid of the typewriting machines,and last,but not least, Mr. Fromme says,the co-operation of Mayor Van Wyck and the Board of Estimate and Apportionment, have enabled him to be of service to the members of the bar and of the real estate fraternity. Further, the Register invites criticism of his work because thereby he may be enabled to be of greater service to the public using his office. Any request that it is physically possible to comply with, it is his intention to grant. The rule of his office is to accord courtesy and every facility and assistance to people having business with it.

THE ANNUAL DINNER OF THE WEST END ASSOCIATION.

The annual dinner of the West End Association was held at Sherry's last Saturday evening. The affair was a very enjoyable one, and was attended by a large number of representative West Side real estate owners and their friends, together with many guests prominent in official circles. The speakers, who were President Cyrus Clark, Rear-Admiral Henry Erben, Rev. Thos. R. Slicer, D. D., Hon. Jas. McCartney, Hon. Augustus W. Peters, Hon. Geo. W. Plunkett, Hon. Geo. C. Clausen and John C. Coleman, reviewed from their various points of view the improvements that have been brought about on the West Side through the efforts of the Association, and spoke of other advances that could be made to further enhance the region around Riverside Drive. President Cyrus Clark made the following address of welcome:

I congratulate you upon this our annual banquet and greet you at this festive board. Some of those present may not know that the general object of the Association, is the development of the West End of our city. This Association and its immediate predecessor (then known as the West Side Association) have been in existence about thirty years. We have found by experience that "in union there is strength." As an illustration, a new member had a nuisance in front of his place of business; so much so that it cost him $25,000 in one year. He tried individually to have it abated and failed, and then joined this Association, and besought its aid. It was cheerfully given, and the nuisance will soon be a thing of the past. Our dues are $5.00 per annum. I know of nothing that has paid such a dividend. It beats the Klondike, Chemical Bank or Standard Oil.

During the present year less has been accomplished by our Association than any year within my remembrance. This arises from the fact of our having taken in (or rather, been taken in by) several bankrupt communities, that neither knew themselves, nor did anybody else know what their real financial condition was. They are now called Boroughs—and properly named. Of course, the first question raised was the bonded debt. Immediately a cyclone struck the underground railroad project, and all other general improvements. In my opinion, the consolidation was the greatest political and business blunder that was ever recorded in our history. We had more cause to revolt than the thirteen original colonies when they revolted against the mother country. As a cheerful Christmas gift, we are told that the valuations will be put up about 30 per cent. next year in order that more bonds may be issued. It behooves us to be on the alert and see that we get a fair share of the appropriations, and among them ought to be the $250,000 for the soldiers' and sailors' monument. I congratulate the Association upon the position it has always taken upon this important matter, and that was that, in order to do equal justice to both branches of the service the monument ought to be located somewhere upon the water-front. But on account of the late Cuban War there is no doubt as to its location. Manila, Santiago and Porto Rico settled the question beyond peradventure. The sailors will have an opportunity to view the monument intended for them equally with the soldiers. I am informed that in all probability it will be placed upon Mount Tom, about 83d or 84th street on Riverside Park. A more appropriate place is not to be found in the known world. The petition I presented to you at our last banquet was signed by the officers of the Navy. It asked that the proposed monument be placed upon the water. Among those names were those of Dewey, Schley, Sigsbee, Sampson, Wainwright, Hobson, and

Jenkins. Little we thought at that time that in a very few short months, by their unparalleled achievement, their names would go down to history for all time. I ask whether their memories ought not to be commemorated by a fitting monument?

Rear-Admiral Erben alluded to the Soldiers' and Sailors' Monument, and favored the placing of it on Riverside Drive. He hoped that when the matter came up again that some sailor would have a voice in it. The partakers of the banquet were the following:

At the guests' table, with President Cyrus Clark were Hon. Augustus W. Peters, Rear-Admiral Henry Erben, Rev. Thomas R. Slicer, D. D., Hon. Geo. W. Plunkett, Hon. James McCartney, and Hon. Geo. C. Clausen. At the other tables were: J. V'D. Card, John T. Farley, Thos. A. Fulton, A. W. McLaughlan, Frank R. Houghton, Noah C. Rogers, Ira E. Ryder, John F. Doyle, Alfred L. Doyle, Chas. G. Dobbs, Geo. C. Batchellor, Hon. W. B. Ellison, W. L. McCorkle, C. E. Hastings, Hon. James J. Phelan, W. W. Brower, Perceval R. Moses, Charles Buek, Walter Stabler, H. E. Stevens, Hon. Judson Lawson, Alexander Walker, C. C. Marble, W. Johnson Quinn, Gen. Thos. L. James, John R. Van Wormer, Cassius M. Wicker, Lucius M. Stanton, Hon. Robert E. Mazet, DeB. Wilmot, H. C. Fisher, John C. Coleman, E. Twyeffort, Chas. A. Terry, J. V. V. Olcott, Richard Deeves, Jas. A. Deering, J. Edgar Leaycraft, Archibald Turner, Frank Brainard, R. E. A. Dorr, and Prof. J. D. Robinson.

BUILDING CODE AND HEICHTS OF BUILDINGS.

The Council has formally approved the nominations of William J. Fryer, Robert McCafferty, George A. Just and Cornelius O'Reilly, of the boroughs of Manhattan and The Bronx; Rudolph L. Daus and Bernard Gallagher, of the Borough of Kings, and Daniel Callahan, of the Borough of Queens, as experts in the science and practice of building; Rolin M. Morgan, as a representative of the Corporation Counsel, ex-officio; and the Board of Buildings, consisting of Thomas F. Brady, Commissioner for the boroughs of Manhattan and The Bronx; John Guilfoyle, Commissioner for the Borough of Brooklyn, and Daniel Campbell, Commissioner for the boroughs of Queens and Richmond, to form the Commission to draft a Building Code for this city. The names were submitted to the Board of Aldermen on Tuesday last and referred to the Committee on Public Buildings, Lighting and Supplies.

In the Council on Tuesday last Councilman Christman offered the following preambles and resolution, which were referred to the Committee on Public Buildings, Lighting and Supplies and experts on Building Code:

Whereas, Under the provision of Section 43 of Chapter 378 of the Laws of 1897, commonly known as the Greater New York Charter, the Municipal Assembly is authorized to regulate and restrict the height of buildings to be hereafter erected in the city; and

Whereas, Recent disastrous fires have demonstrated the imperative and urgent necessity of such regulation and restriction;

Resolved, That the Committee on Building Department and on Public Buildings, Lighting and Supplies of the Council and the Board of Aldermen respectively, also the seven experts in the science and practice of building, nominated by the President of the Council and the President of the Board of Aldermen, together with the representative of the Corporation Counsel and the three Commissioners of Buildings, on Dec. 15, 1898, as a commission to prepare and report "the Building Code of The City of New York," be and they hereby are requested and empowered to meet in joint session to formulate such comprehensive ordinance as may effectually prevent the dangers threatened by the excessive and exaggerated height of buildings, to hold public hearings wherein the expression of views of experts shall be invited to aid them in their deliberations, and that such ordinance when reported to the Municipal Assembly be promptly referred, as provided under the section of the Charter hereinbefore cited, for approval to the Board of Public Improvements.

THE TOMBS CONTROVERSY.

As the strength of their structural iron-work in the new city prison has been called in question by the Commissioner of Buildings, Messrs. Withers & Dickson have forwarded to the Record and Guide for publication a protest which they have addressed to the Board of Estimate and Apportionment in relation to the matter, under date of 20th inst. In this protest they point out that on September 27th they protested to the Board against the consideration of any detail plans for the cell-work, except their own. Other plans, approved by the Commissioner of Correction, were laid before the Commissioner of the Building Department, Nov. 28th, who found that the structural iron-work, then being built by contract, was not sufficiently strong to carry the steel-work, as proposed by these plans. Upon this the Commissioner of Correction stopped work on the building.

Withers & Dickson protest against the consideration of the new plans by the Board of Estimate and Apportionment on the grounds: That "the plans and arrangement of the cells are copied" from those prepared by them, and filed in the Department of Correction; that the structural iron-work in the building was designed so that it should be just the strength required by the building laws to carry a load of steel-work such as they intended to impose upon it; that the adoption of these plans will entail an unnecessary expense of at least $40,000 more than the work contemplated by them. They charge that the plans show a large amount of meretricious ornamentation, and were gotten out in the interest of a firm of jail builders in the West.

They further claim that where an architect is appointed, as in their case, to design and superintend the erection of a building every portion of it should be under his direction and supervision, and that it would be a breach of contract to employ other parties to carry out any special part of it. They, therefore, request the Board to decline to adopt and approve any new plans for the cell-work, steam heating, plumbing, electric work, etc., in completing the new city prison, and to order contracts to be made and carried out in accordance with their plans.

The feature of the private sales' market this week—a feature which promises to grow in prominence as the season advances—is the purchase of mercantile property by solid and conservative houses for the purpose of meeting the demands of expanding business. It was only last week that the Siegel-Cooper Co. bought Nos. 25 and 27 West 18th street, on which to erect an 8-story addition to their store. This week Charles Broadway Rouss has bought No. 555 Broadway, running through to Mercer, which adjoins his store at Nos. 549 to 553 Broadway, and which will be reimproved as soon as the present lease expires. The announcement that H. O'Neill & Co. will build a 10-story annex, 150x200, back of their big building on 6th avenue, between 20th and 21st streets, is equally significant, although the site has been in the possession of the firm some time. The Central Brewing Co. have purchased ground on 68th street, near Avenue A, on which to erect a brewery. Hardly less important as an indication of improvement in the demand for mercantile housing are the sale of the southeast corner of Church and Leonard streets, 125.7 x101, which will be improved with a 12-story structure, and of No. 323 5th avenue. Neither the name of the buyer of the latter parcel, nor his intention in regard to his purchase, have been made public. Nevertheless, the property belongs to the speculative class, whose value is actually realized only on reimprovement. Another operation of similar character is the sale of No. 41 East 21st street to a builder, who will erect an 8-story steel frame building. The sale of the two 5-story converted business buildings, Nos. 463 to 469 5th avenue, opposite the New York Library site, though not free from the element of barter, may be regarded as an investment transaction, inasmuch as the property is leased for 5 years to come, and will not be improved before the lease expires. Among investment operations also belong the purchase of the 9-story fireproof building, No. 25 Waverley place; the 7-story mercantile building, Nos. 244 and 246 West 23d street, and the Democratic Club house, on the southwest corner of 6th avenue and 55th street. The sale of No. 411 Broadway was reported in these columns two weeks ago, though without the buyer's name, and, therefore, is not considered among this week's achievements. The foregoing statement of transactions affecting mercantile property comprises a larger number of conspicuous properties than we have been able to report in any week since the opening of the season. And it is worth while to note in this connection that, according to the Merchants' Association, manufacturers, particularly in the dry-goods trades, are exceptionally busy, the whole output of some factories having been sold in advance until March.

The notable transactions of the week have by no means been confined to mercantile property. There is no falling-off apparent in the demand for expensive sites adapted for fine private dwellings and first-class apartments, Central Park West and Upper 5th Avenue coming in for their share of attention; nor is there any apparent diminution in the sales of the ordinary run of flats and tenements and private houses. The total number of transactions given below is 42, with considerations given in 12, and amounting to $1,254,000; corresponding figures for last week were, 39, 14 and $967,000, respectively.

The Real Estate Salesroom was unusually quiet this week. The list of offerings was short, and contained no items of particular interest. There was only one voluntary sale, and in this the property was bid in. In other words, the character and extent of the week's business emphasized the tendency on the part of owners and auctioneers, which has been apparent during the whole of this month, to postpone voluntary auctions until after the holidays, when it is thought the activity of the private sales' market will have created a sympathetic movement in the auction market. The following adjournments to dates beyond the coming week are to be noted: No. 367 Cherry street, D. Phoenix Ingraham, adjourned to January 4; and No. 486 Pearl street, William M. Ryan, adjourned to January 6.

REAL ESTATE NOTES.

The Bowery is to remain titually the Bowery, the Local Boards of the 10th and 11th Districts having decided not to recommend a change to either South 3d avenue, or South 4th avenue.

Mrs. Josephine Schmid was the buyer of No. 411 Broadway, reported in our issue of the 10th inst.; this gives her a plot fronting 50 on Broadway, by 140 feet on Lispenard street. The price paid for No. 411 was $132,500.

A dividend of 2% has been declared on the stock of the Title Guarantee & Trust Co., whose offices are at No. 146 Broadway. The official announcement and information regarding the opening and closing of the books, etc., can be found in our advertising pages.

Operator Edmund Coffin, who this week bought three lots on the south corner of 5th avenue and 97th street, through Broker Samuel Goldsticker for $70,000, last March, purchased eight lots on the north corner of the same street for $95,000, through Mr. Goldsticker.

William A. White & Sons were the brokers in the trade of Nos. 463-469 5th avenue, for a plot of about 42,000 square feet, at the corner of 16th and R streets, N. W. Washington, D. C. The 5th avenue property figures in the trade at $500,000, and the Washington property at $175,000.

The plot on 5th avenue bought by Mr. Carnegie was a part of a larger plot owned by Samuel and Isaac Untermeyer, of which they purchased in 1890 for $255,000, the block front 201.5 on 5th avenue by 178.11 on 91st and 92d streets. They transferred to Mr. Carnegie 201.5x230x100.8x130x100.8x100 for the sum of $395,000.

The Monument Commission this week decided on Mount Tom, in Riverside Park at the foot of 83d street, as the site for the Soldiers' and Sailors' Monument. It was decided to meet with the Art Commission a few days later and arrange details. This is the site, next to Riverside Drive and 72d street most approved by West Siders, and its selection is a triumph for the West Side Association.

The Supreme Court Appellate Division has decided that interest on awards to unknown owners, in condemnation proceedings, should date from the time title vests in the city and continue until the awards are paid into the Court. Another opinion of the same court confirms a decision of a lower court that when property to which a perfect title cannot be given is sold at a judicial sale the bidders must be fairly apprised of the nature and extent of the title to be acquired or given notice that they themselves must inquire into the state of the title and take it entirely at their own risk. The conditions of the sale and the character of the title, it was held, should be announced by the auctioneer or Sheriff, and the purchaser had the right to rely upon the announcement as made by him.

CONCERNING REAL ESTATE AGENTS AND BROKERS.

The recent sales of real estate, both vacant and improved, made by the firm of Charles A. Kohler & Brother, in the upper West Side district recently, indicate a very healthy and much improved demand for realty in that section of the city. In conversation with this enterprising firm, we learned that the inquiry for realty in their section is very encouraging, and they have no hesitation in expressing their anticipation of a large business in the coming year. This applies as well to purchases for investment as to new building enterprises.

BROOKLYN REPLIES.

To the Editor of THE RECORD AND GUIDE:

In answer to "A Significant Comparison," made by Augustus A. Levey, New York people generally are prejudiced against Brooklyn property, and Mr. Augustus A. Levey must share the common failing else he would not make so plainly an unfair comparison as that of his which was published in your estimable paper of Dec. 10th. In speaking of building plans filed the preceding week, he said, "these plans call for an expenditure of two and a-half times as much money in the 23d and 24th Wards as in the entire city of Brooklyn, and the average of each building to be erected is nearly three times as great." It will only be necessary for me to call attention to the "fire limits" which necessarily must be considered to show unfair comparison. To say nothing of the fact that nearly all the buildings put up in Brooklyn are private dwellings, as against apartment houses in the 23d and 24th Wards—and apartment houses never enhance values very much; neither will they attract capital, but rather become in time property that the owner will gladly exchange for private dwellings in "far-away Brooklyn."

The Building Trades

MATERIAL MARKET.

BRICK.—The quantity of brick arriving this week was very large, and exceeded the amount of the previous week. It was sold immediately on arrival, commons bringing values ranging from $5.50 to $5.75, and specials selling at $6.00. Pales went easily at $3.50, and in many cases brought $4.00. Nearly all the up-river barges now unloading are under orders to lay up in winter quarters as soon as possible. The Haverstraw shippers, however, will endeavor to forward brick as long as the towing companies will take their boats. New Jersey brick are pretty well up to North Rivers, and in some cases have been equal. No trouble has been experienced this week from ice, and shipments have been regular.

LIME.—Three cargoes of Rockland lime arrived this week and were sold at prices ranging from 75c. to 85c. The demand continues very good, and the amount arriving is insufficient for the present needs of the market. No lime is being offered, and wholesalers are not making any prices to arrive. Freights have advanced to 21c. a barrel. The bad weather hampers the loading of vessels, and many have not gone back to points of lading. There is a good demand for State lime for current uses. There is no very large stock anywhere on this market. Prices are steady at 75c. for common, and 90c. for Jointa.

LATH.—There were practically no arrivals in lath this week; there are none here, and few on the way. Last sales were made at $1.80, and wholesalers are asking $2.00 to arrive.

CEMENT.—The demand for Rosendale continues good, with prices unchanged from last reports. There is a very good demand for imported Portland and shipments are absorbed as rapidly as they come in. There is no material change in prices, but indications are very strong that there will be a considerable advance in the price of European cements next season. The requirements of the home markets, together with the increased demand from Japan, Asia and Africa, will reduce the shipments to this market next season, and will probably result in an increase of prices on the American product.

OIL.—There is no material change in the market over last week. Trade is mostly in jobbing parcels, and there is no buying for the future. Many buyers have withdrawn from the market for the remainder of the season. Prices remain at 37c. for raw oil in 5-bbl. lots and 38c. for smaller quantities. Boiled oil is at 39c. and 40c., and Calcutta is selling for 54c.

NAILS.—The slight advance developed last week is being well maintained. The local trade in wire and cut nails is quiet, although this is partially compensated by the increase in the export trade. Prices are the same as quoted last week.

LEAD.—Owing to the dull conditions that usually prevail in lead at this time of year, trade is only nominal. There is, however, a further strengthening in prices due to a continuance of the advance in the price of pig-lead stated last week.

PAINTS.—Trade in paints is seasonably quiet and prices are unchanged.

GLASS.—The demand for glass is quiet this week owing to the bad weather. Prices remain steady at 80 for Plate, 80 and 10 for French window and 80 and 20 for American window.

NAVAL STORES.—There was only a limited jobbing trade in spirits of turpentine on a basis of 43½c. for machines. Later advices from the southern market of an advance resulted in a rise to 44c., at which figure some sales were made. A stronger feeling developed later, and one bid for 100 bbls. at 44c. was refused. The market closed firm at 44c. for southerns, and 44½c. for machines. There was only a limited call for tar. Prices have dropped since last week, and are now $1.65@1.70 for regulars, and $3.45@3.50 for oil barrels. Pitch ruled dull at $160@1.65.

LUMBER AND HARDWOODS.—Owing to the existing bad weather and the usual season's dullness, trade is very quiet in lumber and hardwoods. The lumber trade is directly influenced by the extent of building operations, and many dealers are of the opinion that a great deal of work that has been held back for the past two or three years will be consummated next year, so that an excellent season is anticipated in 1899. Prices are stiff in the hardwood market, especially on White Oak, and Poplar culls, in both of which woods there is a marked scarcity. The better grades of Poplar are in good demand at advanced prices. Many cargoes of Spruce were lost in the recent storms, and the demand exceeds the supply. An advance in freights is looked for unless more vessels can be obtained for carrying Spruce. Yellow Pine is in good demand, with prices about the same. There is an excellent demand for Cypress, with a scarcity of dry stock, so that prices have advanced considerably. The imports in Mahogany this month were light, and the demand has greatly reduced the available stock, which is smaller than for several years past. For the first time in many months a cargo of Cuban Mahogany arrived. The stock of Cedar in first hands is very small.

OF INTEREST TO THE BUILDING TRADES.

E. M. Boeheim, architect, formerly of Englewood, N. J., is now at No. 150 Nassau street, in Room No. 919.

Affairs in the plumbing trade are quiet at present. Most of the operations in progress are above 59th street, and consist for the greater part of work on old contracts.

An election of officers for the Association of Master Plumbers of Manhattan and The Bronx will take place at No. 155 East 59th street, on Tuesday, January 2d, at 8 p. m.

Work on the Ivins' Syndicate Building is about completed. Workmen are pushing up the few odd jobs that remain to be done and the elevators are receiving the power.

The Builders' League excursion to Washington next month is expected to leave about the 26th and return on the 30th. The Committee are arranging details which insure the success of the trip.

The following appointments have been made in the Department of Buildings (Borough of Manhattan): Edward P. Keenan and James Costigan, clerks, and Peter H. Raub, inspector of buildings.

After considering various propositions for increasing its clubhouse accommodations, the Reform Club has decided to remain at 27th street and 5th avenue for some years to come, and to proceed at once with alterations and additions to the club-house.

A Chicago press dispatch says that a company, of which Alderman Gunther is president, backed by a capital of $300,000, will erect a new coliseum between 14th and 15th streets. Work will be begun as soon as the land can be cleared of the buildings now on it.

It is rumored that a new organization of journeymen plumbers is being formed which will affiliate with the Building Trades' Council, and, as this organization is desirous of establishing harmonious relations with the employers' associations, this would be a decided move toward the prevention of sympathetic strikes in the future.

An agreement has been signed between Marble Industry Employers' Association and the Marble Machine Workers' Union, an organization composed of sawyers and bed-rubbers. In this compact the members of the Marble Machine Workers' Union agree not to strike without first submitting their difficulties to a committee of the Marble Industry Employers' Association. All disagreements will be settled by arbitration, and the interests of the employers and employees will thus be advanced profitably for both sides.

TRADE NOTES.

CARPENTRY AND BUILDING.

P. Walsh, carpenter and builder, of Nos. 420 and 422 West 25th street, where he has been established for the past twelve years, belongs to the solid and reliable class of carpenter-builders and general contractors who have contributed in no slight manner to the building and house construction in New York. He has been established since 1872, and has built to a great extent in the lower section of the West side. He is a legitimate builder, and has built on contract many factories, churches, mercantile buildings and private residences. Among the more important contracts completed are the Temple Beth-El, Bowery Branch, Y. M. C. A., churches of St. John the Evangelist and the Sacred Heart, Ursuline Convent, in Bedford Park, St. Elizabeth's Academy, Home of the Little Sisters of the Poor, in 106th street, and a mercantile building on 34th street and 10th avenue.

POINTS ON DECORATING AND FRESCO CLEANING.

The Lloyd Fresco Cleaning and Decorating Co., of No. 13 West 42d street, have secured an enviable record for first-class work. As the name implies, fresco cleaning is a leading feature, and many New Yorkers testify to astonishing results secured by the Lloyd process, and at a low cost. It restores smoky wall papers and smoky ceilings to their original brightness, thus doing away with the necessity to paper anew or redecorate. A pleasing part of the work is its cleanliness; it creates no dirt or dust, therefore it is unnecessary to remove carpets or furniture. Builder Wm. A. Hankinson, of West 33d street, who has been a patron of the Lloyd Company for two years, told the writer: "Their work is very satisfactory; they make good all their claims." Only recently the company finished a contract at the 5th Avenue Bank, and an inspection shows the work was very well done. At this season of the year, Mr. Lloyd says, an astonishing amount of work can be done for $100, and owners or agents who have untenanted houses, for sale or to let, that are not in good condition, are asked to give the Lloyd Company an opportunity to inspect same, and submit specifications of what can be done for $100 in the way of cleaning, touching up and painting to make the houses more salable or rentable. Besides the cleaning process the company execute contracts for painting and decorating of every description, for which they have excellent facilities. All decorating ceilings and hanging wall papers done by the Lloyd Co. they guarantee to keep clean for two years without additional charge. It will pay owners, architects and builders to consult the Lloyd Fresco Cleaning and Decorating Co. before making contracts. Their telephone call is 705 38th street.

GOOD INVESTMENT PROPERTY.

Three five-story improved flats recently completed, at Nos. 60, 62 and 64 West 98th street, near Columbus avenue, are up-to-date in planning, construction and finish. There are three neatly decorated suites of four rooms and bath on each floor, and all modern improvements, including open plumbing, enameled bath-tubs and hot water supply from basement are provided. The kitchens are well lighted and ventilated, and are supplied with gas ranges. Although the houses were only finished early in October, they were fully tenanted by the first of November, which speaks well for their attractiveness. Builder Hilgers, of No. 254 West 102d street, is offering the houses at bargain prices to effect a quick sale.

MOVING BUILDINGS.

An ingenious plan for the moving of buildings ranging from frame houses to the heaviest kind of masonry structures, has been adopted and is in use by Contractor Wellsworth K. Clynes, of No. 250 Varick street, Jersey City, N. J. Ordinarily in moving buildings of masonry or brick, screw jacks are used, as the movement has to be slow and steady to prevent the disturbing of the masonry and such a motion is not easily attainable with cables and windlasses. The method employed by Contractor Clynes is ingenious and highly successful, and is essentially as follows: Longitudinal timbers, 12 ins. x 12 ins. x 80 ft. are placed under the walls. These rest on transverse timbers, which in turn are held up by a series of "screw timbers." The building is then jacked up on this framework and shoe timbers are inserted under the screw timbers perpendicular to them, and lastly, track timbers are placed parallel to the walls. Chains are securely fastened around the screw timbers, and shoe timbers at regular intervals, and attached to whiffle-trees, which are strong timbers pivoted at the center so as to have a horizontal swing, and which carry sheave blocks. The blocks are connected by cables to a corresponding number of blocks on an anchor timber. The cables then run to windlasses operated simultaneously by horse power. Through compensating action of the whiffle-trees, a perfectly even and equal pull is exerted on all parts of the framework supporting the building. A building was moved in this way on Elm street, New York, without the slightest disturbance to the masonry. Mr. Clynes' business was established in 1849.

Questions and Answers.

MANHATTAN TAXES—WAR TAX—SURRENDER OF LEASE.

To the Editor of THE RECORD AND GUIDE:

(1) Were the taxes of the Borough of Manhattan, City of New York, that were paid this October the tax for the year 1898 or 1899? (2) Who is to pay the Revenue War Tax on a deed, the buyer or the seller, and how much on a price of $19,750? (3) I gave a store tenant a 5 years' lease on a store and a basement and the tenant moved out, by not being able to pay the rent on same. The lease has still 3 years and 4 months to run before its expiration. I ordered the tenant to move, which he did, without me giving him a dispossess notice. Does the unexpired term have any hindrance on the property, as I would like to sell the property? If it has, please state in what way?

Answer.—(1) The taxes were for the year 1898. (2) The seller must pay a stamp tax of twenty dollars. (3) The tenant surrendered the lease and you accepted the surrender. The relation of landlord and tenant is at an end. There is nothing in the way to hinder your selling the property.—Law Editor.

MECHANIC'S LIEN.

To the Editor of THE RECORD AND GUIDE:

Are Sundays (or the seventh day) included in the ninety days which are allowed in filing a lien, or does it mean working days only?

Answer.—Sundays are included, unless the last day of the ninety falls on Sunday; in such case the statuory ninety days expires on Monday.—Law Editor.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

When the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

Mortgages against 23d and 24th Ward property will be found altogether at the foot of this list.

Mortgages under this head marked with * denote that the property is located in the new Annexed District (Act of 1895).

JUDGMENTS.

In these lists of Judgements the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means jugment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week, and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

BUILDINGS PROJECTED.

THE LAWS AFFECTING BUILDING.

There has not been any book on the market containing all the laws and regulations relating to building in New York City; yet the need of such a volume is plain enough, because a building from its foundation to its final demoltion is subject not only to the building law, but to special regulations of the

building department concerning passenger elevators, fire-escapes, light and ventilation and plumbing. There is also a law limiting the height of dwelling houses and another requiring temporary flooring. There are the tenement house and lodging house laws, laws relating to the extinction and prevention of fires and explosives, and the storing of combustible materials in buildings. Moreover, there are very important fire department regulations which must be observed in the installation of electrical apparatus, and there are, of course, all the regulations of the department of public works concerning Croton water rates and the use of water, the opening and refilling of trenches and restoring of street pavements; in addition to ordinances pertaining to the inspection of steam boilers. The architect, builder, building material man and real estate owner must be familiar with these laws and regulations; if he is not, he suffers. They are now all gathered together (with a directory of architects) for the first time in one volume, illustrated, indexed and supplied for $2.50. Record and Guide, Publishers, 14 and 16 Vesey street.

The first name is that of the owner; ar't stands for architect, m'n for mason, c'r for carpenter and b'r for builder.
When character of roof is not mentioned, it is to be understood that the roof is to be of tin.

JUDGMENTS.

In these lists of judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in the list of Satisfied Judgments.

MURESCO!

It is a permanently hard wall finish. Over plaster it produces soft, even tints, giving the effect of kalsomine, without the flashing, with none of its disadvantages. It does not rub off against the clothing; will not crack nor peel. It will kill suction, and give a smooth, soft, even coat over an old plastered wall that has been patched. It comes in fifteen artistic colors and white.

You may have a color card and full information about Muresco for the asking.

LUMBER.

Appended quotations are based almost wholly upon prices obtained for goods from first hands. Yard rates necessarily range much higher owing to the expenses attending sorting out and grading cargo and even car lots, besides which must be added the cost of handling and carrying until consumers are ready to invest. Terms of sale also prove important factors, and altogether it is impossible to give a line of retail quotations thoroughly reliable in character.

Vol. LXII. DECEMBER 31, 1898. 1,607

NOTWITHSTANDING the advances this year has already made in prices of securities, it closes with the usual anticipation that the January disbursements will favorably affect the stock market. Ordinarily it takes a week or two for the disbursements for dividends and interest to reach that market, but the times are so exceptional that the rule may be broken this time. The last days of the year saw a moderate rise in the rates for money, but this is so thoroughly explained by the need of preparation for the January payments and in making up and settling balances at the close of the year, that it need raise no fear that the rise will be maintained now. Money here and reserves abroad are not only too plentiful for that, but the commercial demands upon funds have not yet made themselves sufficiently felt. With the enlargement of general business, which the coming spring is sure to bring, money will be in greater demand for commercial purposes and the period of extremely low rates, which has now lasted so long, will be at an end. This in many respects will be better than present conditions; because, though railroad earnings are large and there are many other indications of improvement in business, the speculative markets attract too much attention and possibly hinder that industry and activity upon which substantial progress depends. For this reason it will be a healthy sign when money is in greater demand for trade and manufactures and in less supply for speculation. Such a sign is needed as the final proof that the prosperity everyone looks forward to is actually coming.

THERE are same indications of an easing of money in Europe also with the opening of the New Year, when interest requirements have been met and the great financial corporations are no longer under the necessity of keeping large amounts of cash on hand to figure in their balance sheets. The condition of the Imperial Bank of Germany by last mail advices showed some improvement. Compared with the same time last year, discounts showed reductions; the metal stock had increased by $4,600,000; the note circulation was within the tax limit for the first time since the end of September. The circulation of the bank had never before remained so long above the tax limit. Finally, the notes were covered to the extent of 72.86 per cent., against 69.85 per cent. a week before, and 82.27 at the corresponding date of 1897. The proposition to give the new Indo-China railway loan the guarantee of the French government has been defeated and the loan, will, therefore, have only the colonial guarantee. It is understood that bids for the construction of the line from Lao-Kay to Yunnan Sen will be invited without delay in order that the French may reach Yunnan province before the English reach it from Burmah. The disorders in the Hungarian Parliament and the Prague Iron Industry Co scandal, are the clouds on the Vienna Bourse. Discussion of the latter has brought out the fact that the company, besides an ordinary reserve of 1,160,000 florins, had in the course of some years accumulated other reserves amounting to 9,000,000 florins. The directors proposed to distribute 4,000,000 florins, or about 100%, to the stockholders, after having paid large annual dividends. These facts have raised the question of the advisability of removing the protective duties from iron in Austria and will doubtless be followed by legislation to that effect. Trade reports of Argentina develop the fact that the Italian trade with that Republic is making the largest strides. This is attributed to the movement of Italian emigration to the country. In the first three-quarters of the year four countries increased their trade with Argentina: Italy, Britain, Belgium and Germany. Italy led in increase of imports and Britain in increase of exports. The United States is singularly absent from this return. Indian business is recovering from the depression it felt consequent on the famine, war and plague. Railroad earnings in India are increasing satisfactorily, and at the same time economy in working, learned in time of distress, has not been forgotten, so that dividends are on the whole also improving. The Labor Department of the British Board of Trade reports that the general state of employment during November was good, with marked improvement in the tin-plate and shipbuilding industries.

OUR "FURTHEST NORTH."

THE "Sun" is protesting against what it calls the popular "craze for longitudinal transit." It asserts that New Yorkers are beset with the delusion that the only natural and proper direction for their city to grow is northward, as if there were no other place than Harlem to live in. The immediate cause of these remarks was the refusal of the Board of Aldermen to appropriate the necessary sum of money for preliminary surveys for the proposed additional bridges over the East River. Quite properly the "Sun" is striving by its remarks to contemplate the entire metropolis, but evidently it mistates the situation.

We would like our contemporary to explain in what does the craze for longitudinal transit consist. What evidence is there that people have shown the predilection of delusion for Harlem and our Furthest North? Do New Yorkers exhibit a boreal tendency? Is Brooklyn, then, a myth, and its eastward moving multitudes at evening the nightmare of a forsaken Harlem lot-owner? Is Loneliville purely a creation of the funny man, and must we admire no longer the courage of the tens of thousands who brave the daily discomforts of New Jersey ferries and the terrors of fogs and ice. Craze for the North, indeed! Rather, is there not a remarkable popular impartiality as to the points of the compass?

And so far as private enterprise goes does transportation specially favor the northern direction? Hardly! It has been said that a man to-day may more easily pass into Brooklyn than into any other place of perdition. Even with the recent development of the surface roads in New York, Brooklyn, we judge, is still ahead of Manhattan in transportation facilities. When New York had nothing but horse cars, our sister borough was completely reticulated with trolley lines. One hears little complaint of the difficulty of getting to any part of Brooklyn, even out into the sandy suburban lots on the outskirts. Equally easy are the avenues of ostracization provided by the railroads for the New Jersey suburbanite who is commercially, if not socially centered in New York. One can reach Elizabeth, for instance, in about one-half the time necessary to travel to Fifty-ninth street. No, whatever "craze" there is for longitudinal transit was not born of the popular delusion that the city ought naturally to expand northward. New York City, Manhattan Borough, to-day spent its money freely in bridging the East River, that is in aiding oriental, or, shall we say, latitudinal transit.

We have no objection to more Brooklyn Bridges. Build them by all means. But let us not deny that the North has its claims. And, as a matter of fact, are not its claims entitled to consideration and satisfaction, before more millions are spent to induce the New Yorker to pass out into Long Island? The "Sun" is entirely mistaken. There is not any craze for northern transit. If there had been anything really deserving that name, the underground road would have been built long ago, despite the selfish opposition of certain corporations. The demand, such as it is, for an underground road, is a matter of business. It is the cry of New York property-owners. There are millions of dollars worth of real estate uptown remaining in a most unsatisfactory condition for the lack of proper transit facilities. People would buy or rent this property and the city would derive larger taxes from it if only it could be reached comfortably and quickly. And apparently, it cannot be so reached unless the municipality aids in some way the construction of an underground road.

A CORRESPONDENT writes to us, chiding us for having disturbed the peace and good will of Christmas time by even hinting last week that there were some citizens so devoid of patriotic sentiments as to wish that the four hundred and fifty millions that will probably be appropriated for the Army and Navy and Pensions next year might be spent by this country instead in promoting Commerce and the Arts of Peace. Consider! exclaims our disturbed friend, the hidious maze of peaceful calculations these figures invite us to enter. It is like asking the Patriot into an immensely intricate labyrinth, from which, once entered, there is no escape. Think of spending four hundred and fifty millions a year on libraries or on technical schools, or on works of art, or on roadways, or on docks, or on ameliorating the condition of the poor, or on hospitals—and at the same time forgoing for the sake of these trivialties the glory of a big navy and the pomp of a large army! We regret we suggested this thought so out of harmony with the Christian spirit of the times. Our correspondent, however, might have comforted himself with the assurance that, in the present mood of our people, there is

not the slightest chance that we shall sell our birthright to be as war-like and swaggering as any other military cursed nation for all the messes of potage that Peace has to offer. Probably all the Impossibles who oppose the martial enthusiasm of the country, have already been heard from, in the newspapers. They are a mere handful of insuferably decent people. The only admirable thing about them is their heroic adherence to an utterly hopeless cause. The entire nation is against them. These absurd people continue talking as though this nation had not come to like war very much as the gentleman came to like yule-tide, because "one feels so happy when one has a yule-tide on." If we look around the world we see that no nation is really happy that is not either preparing for war on the largest scale possible, or actually engaged in the fun of war. All great nations keep their spirits up to concert pitch by either bragging of what a terrible licking they could give any one of their neighbors, or by picking out the smallest fellow that stands in their way and actually licking him. That makes "Glory" and creates "Heroes" and provokes mirth. It also adds to the stock of ill-feeling that separates nation from nation, and man from man, and provides a modern instance of the seriousness of our belief in the teachings of Christ and in the peace and good-will which poets write about and which draws our tears when read in musical quatrains. Our correspondent may rest easy. The American people do not intend to let Europe have a monopoly of conciption, high taxation, vast camps and huge navies, or of the spectre of poverty stalking even in the cornfields in times of peace which gives way only on the advent of its grimmer sisters, Rapine and Bloodshed. Heavens! when we can pay for modern civilization why shouldn't we have it? What's four hundred and fifty millions?

SOMETIME ago we pointed out that the interest rates on realty loans in this city must decline, not only because that was their natural tendency, but also because the amounts of money seeking use were so very large. Since then one of the great loaning companies has made loans at 4½%, whereas, its rate before had never been less than 5%, and two announcements made this week give greater emphasis than ever to the assertion that realty in this city must benefit by the great accumulation of capital going on in this country. One of these announcements relates to the placing of large amounts of money on the 23d Ward realty at 4½% and the other to the coming auction sale of a Broadway parcel, the terms of which include a loan at 3½%, the first time that such a condition has been announced in connection with an auction sale.

THE underground rapid transit railroad becomes more and more a live question now that it has been invested with more practical ideas regarding the way to obtain the necessary means for its construction. As we pointed out as soon as this fact became apparent there naturally follows also a demand for changes in the plans. The "Engineering News" has led the discussion this week, through an article in which it is claimed that the four-track plan, while good when it was drawn, has been rendered obsolete by the conversion of the surface traveling systems from horse to electric railroads in order that they may give rapid service for short distances. In place of the four-track roads the article suggests that two-track tunnel roads for express trains only should be built beneath some of the principal north and south lines of the present electric conduit system. It is calculated that such a road with four stops only could carry passengers from the City Hall to the Harlem River in eighteen minutes. This suggestion is too much in line with our own expressed views to call forth any objection from us. But the same article suggests that it is necessary for the success of an underground rapid tranit road in this city that it be turned over to the Metropolitan Street Railway Company to construct and operate. We do not wish to be, too positive, the latest phases of the rapid transit movement are peculiar enough to act as a warning against dogmatism, but we think that position is altogether the wrong one to take. In our view the tunnel railroad should be in competitive and not in monopolistic hands, and that this cannot be either too promptly or too clearly understood. The control of the underground railroad by the Metropolitan Street Railway Co., especially since their agreement with the Third Avenue Railroad Company, would give this company a position in the affairs of the city that no corporation whatever should be permitted to attain. In the naturally great anxiety that exists for rapid transit north and south, much more is sure to be asked of the city by those who offer to supply it than should be granted, and it is particularly necessary that in this case the city does not make a bargain which it will hereafter have occasion to regret, as it has done in the cases of so many other railroad franchises.

PROPOSED BUILDING CODE.

In the Board of Aldermen on Tuesday a favorable majority report was received from the Committee on Public Buildings, Lighting and Supplies and on Building Department on the propositions that Wm. J. Fryer, Robert McCafferty, Geo. A. Just, and Cornelius O'Reilly, of the Boroughs of Manhattan and The Bronx; Rudolph L. Daus and Bernard Gallagher, of the Borough of Brooklyn, and Daniel Callahan, of the Borough of Queens, as experts in the science and practice of building; Rollin M. Morgan, as a representative of the Corporation Counsel, ex-officio; and the Board of Buildings, consisting of Thos. J. Brady, Commissioner for the Boroughs of Manhattan and The Bronx; John Guilfoyle, Commissioner for the Borough of Brooklyn, and Daniel Campbell, Commissioner for the Boroughs of Queens and Richmond, be appointed and employed as a commission of experts to prepare and report to the Municipal Assembly a code of ordinances to be known as the "Building Code," providing for all matters concerning, affecting or relating to the construction, alteration or removal of buildings or structures erected or to be erected in the City of New York, as constituted by the Greater New York Charter; and that the Board of Estimate and Apportionment be requested to make sufficient provision to pay the necessary expenses of the Commission and to compensate the seven persons named as the experts thereon.

There was considerable discussion upon it, and some opposition on the part of a minority to the adoption of the report. Alderman Goodman, a member of the Committee, submitted a minority report, recommending the reference of the matter back to the Presidents of the Council and Board of Aldermen, with instructions to add to the seven experts already named, an architect, a representative of the Fire Department, an engineer, and a member of the Tenement House Commission; and, further, recommending that the Commission thus enlarged be simply appointed without specific reference at this time to compensation for its services.

A minority report of the Joint Committees on Law, Public Buildings, Lighting and Supplies, and Public Health, which had the original resolution looking to the appointment of a Commission to establish a building code under consideration, and which has never presented a majority report, was submitted. It was signed by Aldermen Folks, Goodman and McInnes, and supported the adoption of the Folks' resolution, already given in these pages, modified, however, by omitting the two lawyers from the commission therein proposed, substituting a representative of the Health Department for the sanitary engineer, and increasing the number of practical builders from two to four. This would constitute a commission composed thus: The three Commissioners of Buildings, the Chief of the Fire Department, one representative of the Corporation Counsel, one representative of the Health Department, two members of the Tenement-house Commission appointed pursuant to the provisions of Chapter 479, Laws of 1894, one architect and one engineer, one representative of the Board of Fire Underwriters of the City of New York, one civil engineer (to be chosen from a list of three names to be submitted by the American Society of Civil Engineers), two architects from the Boroughs of Manhattan and The Bronx, and one architect from the Borough of Richmond, said three architects to be chosen from a list of nine names to be submitted by the New York Chapter of the American Institute of Architects; two architects from the Boroughs of Brooklyn and Queens (to be selected from a list of six names to be submitted by the Brooklyn Chapter of the American Institute of Architects), and four practical builders of at least five years' experience in the construction of modern fireproof buildings. This minority report also provided that the members of the Commission should receive no compensation for their services, and that the Commission should cease to exist upon the adoption by the Municipal Assembly of a Building Code for the City of New York.

Various resolutions to delay or amend disclosed a vote of about 40 in favor of the original report, and 12 against it. It was amended by substituting "Municipal Assembly" for "Board of Estimate and Apportionment," in the paragraph providing for the expenses and remuneration of the Commission, and made a special order for next Tuesday at 2 p. m.

RIVERSIDE PARK EXTENSION AWARDS.

The Commission, appointed to acquire land for the Riverside Park Extension the water front, has filed a preliminary report with the County Clerk, estimating the damages for seven parcels. The land to be taken by this Commission includes land under water and upland fronting upon Riverside Drive, bounded by the southerly line of 72d street, and northerly by the south side of 129th street, both, if extended; east by the westerly line of the Hudson River railway. The parcels upon which reports are made are marked on the damage map as 3, 4, 7, B, 10, 11, and E, which, with the names of their owners and the awards are:

3 and 4.—(3) Block between 72d and 73d streets and 12th and 13th avenues; (4) north side of 73d street and 64.9 feet on 12th and 13th avenues; owners, Standard Gas Co.; award, $120,000.

7.—Lot and 4-story building on southwest corner 77th street and 12th avenue, 65.1x30x20x66; owner Euphemia S. Coffin; award, $12,000.

B.—Block between 80th and 81st streets and 12th and 13th ave-

nues; owners, Ella Smith (one-fifth), Kate Bloxam (four-fifths); total award, $121,973.

10 and 11.—(10) South side of 83d street and 102.2 on 12th and 13th avenues; (11) block between 84th and 85th streets and 12th and 13th avenues; owners, Ella Smith (one-fifth), Kate Bloxam (four-fifths); total awards, $72,021.

E.—Block front 201.10 on 12th avenue and 100 feet on 96th and 97th streets; owners, John D and Thos. E. Crimmins; award, $125,690.

WAR TAX RULINGS.

The Internal Revenue Department has reversed its previous rulings in reference to the taxation imposed upon releases of deeds of trust and mortgages in which these instruments have been held to be subject to taxation as conveyances of land revesting title. The new position taken by the Department towards these documents is given in a letter from N. B. Scott, Chief Commisioner, dated the 15th inst., and published in "Treasury Decisions" of the 22d inst., and in which he says:

"This office has given careful consideration to the question of taxation of these instruments, and has decided to modify the rulings heretofore made on these documents.

"The paragraph relating to conveyances subjects to taxation any deed, instrument or writing whereby any lands, tenements or other realty sold shall be granted, assigned or transferred or otherwise conveyed to or vested in the purchaser. . . . . and the rate of taxation imposed on these instruments is 50 cents where the consideration for the conveyance or the value of the land conveyed exceeds $100 and does not exceed $500; and for each additional $500, or fractional part thereof in excess of $500, 50 cents. Under the construction placed upon this paragraph, all instruments that vested title were held to be subject to this taxation, although releases are not specifically mentioned in the law at all.

"It was also held under this construction that in all States where the common law prevailed the instruments used in the release of mortgages and deeds of trust operating as mortgages, were instruments that vested or revested title, and, therefore, were subject to taxation as conveyances. This was likewise so in States operating under the code system, if the instruments of release, in law, actually vested or revested title.

"Believing this to be a too technical and strict construction of the paragraph in question, this office has finally concluded that it was not the intention of Congress to impose a taxation as conveyances on releases of mortgages and deeds of trust considered as mortgages, especially as such ruling would, where the person borrowed money on real estate, subject the transaction to a triple taxation: First, on the mortgage; second, on the promissory notes secured thereby; third, on the release of the mortgage when the debt was paid, there being not only the third imposition of tax on the release, but also taxing it as a conveyance, which tax is double that of the tax imposed upon the mortgage which it releases.

"You are therefore advised that releases of mortgages and deeds of trust considered as mortgages, are now held to be exempt from taxation by this office, no matter in what form they are executed, whether with the solemnity of a deed, a certificate of satisfaction, or simply as an entry of satisfaction on the margin of the record book in which the released mortgage or deed of trust is recorded.

"Where the release requires a notarial certificate, the certificate is subject to a tax of 10 cents, as the release is exempt from taxation as aforesaid."

Previous rulings of the Department relating to and directly affecting real estate will be found in the issues of the Record and Guide of Sept. 3 and Dec. 10 last.

PRIVATE BILLS BEFORE THE LEGISLATURE.

In the New York "Times" of Dec. 23, there is an open letter from Simon Sterne, Esq., to Governor Roosevelt, which is of real practical value, a genuine contribution to statecraft. Part of this letter is devoted to minority representation in municipal elections, and another part reads that private bills before the State Legislature should be treated as petitions, and be publicly scrutinized, and in putting his finger upon this latter point, Mr. Sterne has touched the keynote of corruption in party politics and in the legislature at the present day. If only a proper law could be passed under which every proposed bill or law should be referred to a committee or bureau of the legislature, before such bill could be printed and introduced into the legislature, in the manner that all private bills are prepared and passed upon in England, every person interested in the subject of the bill would have his opportunity to show whether the proposed law would be for the public benefit or only for the private profit of a few individuals. As it is now, members of the legislature vote on about 1,000 bills a year, and do not know what they are voting about. In fact, they vote on 2,000 or 3,000 bills, and reject as many as they pass, and do not know what they are voting about. This last year, 1897, over 1,500 bills were passed; in 1896, over 2,000. There is no telling now how many were rejected. The worst feature of our present system, or rather want of system, is that this confusion, this over-legislation gives an opportunity of passing as a general law some bill intended to affect private interests, and to meet individual cases, although all such bills are contrary to the amendment of the constitution which went into effect in 1875.

However, it is almost useless to direct the attention of citizens and business men to this condition of affairs. There is not enough public spirit in the citizens of this State to have drafted and adopted a law which should subject all private and local legislation to proper criticism, and to public notice to all those concerned.

So the opportunity of private gain and of obtaining unfair advantage, will remain until very few citizens of this commonwealth will be free from the effects of tyranny in some form. It is a pity, however, that Mr. Sterne's practical suggestions cannot be adopted.

GEORGE W. VAN SICLEN.

THE BOARD OF BROKERS' DIARY:

Among the useful labors which the Real Estate Board of Brokers performs for the fraternity is the issuing annually of a diary and manual specially compiled for real estate men. We have spoken more than once of the serviceableness of this volume. It contains a great deal of the information which a broker needs to have at hand on his desk, and in the issue for 1899, which is just out, the diary is brought up to date at all points and in all matters.

FASHION IN HOUSE ARCHITECTURE.

The growing influence of fashion in the construction of dwelling houses is strikingly apparent in the architectural contrast between the East and the West Sides, above 59th street. The East Side was practically built up by 1885. The West Side, as we know it to-day, has come into existence since that year. The architecture of the East Side is characterized by stereotyped uniformity—row upon row of brownstone houses of monotonously similar design. On the West Side the striving after architectural individuality has been so keen as to prevent only too frequently a harmonious ensemble of the block front. Indeed, no more convincing proof than this contrast between the East and West Sides could be adduced in support of the assertion made by historians of the art that, until but a few years ago, architecture was regarded in New York City very much in the light of an adjunct to the builder's craft.

The elevation of architecture to the position which it now holds was a natural consequence of the growth of wealth in the community, a growth which has been so rapid since the close of the Civil War as to excite universal admiration. The nouveaux riches, themselves devoid of educated taste, were content to accept what the equally tasteless speculative builder saw fit to offer. Hence the high stoop brownstone house, with its machine-made hardwood trim—the type of bourgeois respectability. But the descendants of the new rich, having enjoyed the advantages of education and travel, are making larger demands on the trained taste of the architect as well as on the skill of the builder. The popularity of the French, Colonial and other styles is a suggestive circumstance. Enamel and gold effects, marble, wrought iron, bronze and steel lend themselves far more readily to richness in decoration and furniture than the old monochrome of mahogany and rosewood. Equally significant of improved ideas as to what constitutes comfortable living is the marked preference for the American basement house. One prominent uptown architect has under alteration at the present time no less than twelve high stoop houses in the fashionable district, between 5th and Madison avenues, from 34th to 79th street—alterations varying in outlay from $9,000 to $50,000.

Another feature of modern houses, whether constructed ab novo or altered, is the presence of an automatic electric elevator. Mr. Charles P. H. Gilbert, than whom few architects possess a larger practice in designing private dwellings, always, when the residence is to cost upwards of $25,000, advises his clients to put in an automatic elevator, the cost of which is only about $2,000. Even where the client does not accept his advice, he provides for an elevator shaft, so that the lift can be put in at small cost whenever the owner shall come to recognize the error of his way, the space occupied by the shaft being meantime utilized for closets.

The servant question receives some attempt at solution in a multiplicity of labor-saving devices, particularly in the kitchen and in ampler servants' quarters, including bath, on the top floor. Not infrequently space is found for a servants' sitting room on the basement floor. No modern house is considered complete without a water filter, which costs from $300 to $400. The increased

elaborateness of details subservient to the purpose of ornamentation and utility provides ample opportunity for the force of fashion to make itself felt in house architecture. The more numerous the details, the greater the variety of choice in treatment. And that will always be the "correct" treatment which happens to be the newest—sometimes simply because it is the newest though sometimes also because it incorporates advanced ideas of utility and decoration. But the more rapid the fluctuations of fashion, the more powerful will fashion be as a factor in the depreciation of the commercial values of old houses.

Nevertheless, it is some consolation to know that, owing to the closer identification of the architect's interests with honest construction no less than to the stricter supervision of the Department of Buildings, such loose speculative building as was common twenty-five years ago is no longer possible. How loose the building was is suggested by the fact that in an expensive house on Murray Hill altered not long ago, a supposedly solid 16-inch wall was discovered to be a mere shell filled with rubbish, while the ventilators in the dwelling-rooms were found to communicate with false pockets.

The business of the private sales' market has been very satisfactory for an inter-holiday week. Among the notable sales of vacant property were three corner plots in 5th avenue, opposite Central Park, and another on Riverside Drive and 84th street. It is a significant fact that two of the sites in upper 5th avenue were purchased by wealthy out-of-town people, the one a Bostonian and the other a Philadelphian, who propose to take up their residence in New York. The third was bought by Charles A. Gould. The movement in mercantile property noted last week continues to gather force, although this impression is produced by rumor rather than fact. It is reported that Macy & Co. have bought the northeast corner of 6th avenue and 14th street, that the Roberts mansion, on the southeast corner of 5th avenue and 18th street, has been sold, and that Martin & Bro. have bought Nos. 557 and 559 Broadway. Rumor is also occupied with other Broadway and 5th avenue parcels. Whether founded or unfounded, the persistency of gossip relating to speculative properties in these two avenues indicates that the public considers the market favorable for realizing the speculative values of the properties in question. Many of these are owned by estates, the members of which are dependent on their holdings for an income. Unable themselves to improve, because unable to sustain an interruption of their revenue, such owners have, since the competition of new buildings became serious, been waiting for a favorable turn in the market to sell. We shall therefore undoubtedly see an increasing number of sales in the avenues in question as the season advances. That the time is propitious for resuming the work of reconstructing Broadway and 5th avenue is inferred from the general improvement noted in the renting market for stores and lofts, on the one hand, and offices, on the other.

Traditionaly the season for office renting does not open before the first of February. However, it is characteristic of the keener competition which has come to dominate the real estate agency business that the opening of the renting season for each of the main classes of property actually falls several months ahead of the traditional date. Instead of four months, renting seasons last nearer six months, and consequently overlap each other. In the renting of offices, enough has already been accomplished to give some idea of the relation of supply and demand. And this relation is much more satisfactory this year than last. The new buildings opened in the spring are, all things considered, fairly well rented, and their agents expect to fill them by the first of May. At the same time, with the exception of the Park Row Syndicate Building, which it is generally understood will be largely taken by the city government, there are no mammoth structures in course of erection. The Chesebrough Building might perhaps be considered an exception. But this edifice will hardly come into undue competition with other modern buildings. Its tenantry will undoubtedly be recruited chiefly from the shipping and commission merchants occupying antiquated houses in the immediate neighborhood. The number of offices about to be thrown upon the renting market, as compared with last year, is very decidedly smaller. Of the buildings opened this spring, the Washington Life and the Singer Buildings are practically full; the Empire and the Exchange Court are about half tenanted; the Hudson has had a fair measure of success; the Cushman is occupied with the exception of three floors, and the Gill Building is two-thirds full. It is interesting to note the class of tenants that gravitate into the modern buildings and the rentals that rule. In the financial district the average rentals vary from $1.25 to $3 per square foot per annum above the first floor, the rates ascending from the lower figure as one approaches the corner of Broadway and Wall street. Corporation lawyers predominate in the modern Broadway buildings, between Exchange place and Fulton street. Each of the great fire and life and bank buildings, of course, offer special advantages to allied businesses, and consequently control a stable and profitable income. For example, the Mutual Life Building comprises among its tenants the U. S. Mortgage and Trust Co., the Guarantee and Indemnity Co., and the National Union Bank; the Equitable Life Building has the Mercantile Trust Co., the Bank of North America, the Western National Bank, and the banking houses of Kountze Bros. and Winslow Lanier & Co. The office buildings in the wholesale section of Broadway are all practically full. They command an average of $1.50 per square foot above the store floor, and are occupied by agents of out-of-town houses, mercantile lawyers, who also inhabit the intermediary section down to Fulton street, mining corporations and other industrial concerns. There is only one new office building, pure and simple, going up in the wholesale section of Broadway, namely, that on the corner of Duane street. Offices in the Madison Square district are in good demand, and bring an average rental of $1,25 per square foot above the store floor. They are especially popular with architects, who have joined in the uptown movement, builders, contractors and material men. It is a noteworthy circumstance that many successful Western builders have moved into the district in the past few years—a circumstance which goes to prove that the building industry is less influenced by excessive expansion and contraction in New York than in the mushroom cities of the West. As an instance of what may be accomplished in downtown edifices that have become depopulated by the uptown movement the case of the Crockery Exchange Building, on West Broadway, extending from Park place to Barclay street, may be cited. Originally occupied by lithographers, the building, after the migration of this class of tenants to 19th street and 4th avenue, was altered to suit the requirements of the crockery and glassware trade, with the result that it is rapidly becoming the centre of that industry, which was formerly scattered through West Broadway, Park place, Murray, Fulton, Dey and Warren streets. The indications dwelt upon in the foregoing amply justify expectation of a profitable office-renting season, an expectation shared by leading real estate agents. W.G. Van Pelt, of Geo. R. Read & Co., says that during the past month his office has transacted the largest December renting business in the financial district within his recollection. At Horace S. Ely & Co.'s it was reported that "inquiries for offices have sprung up earlier than usual, brokers find themselves cramped for space." Similar answers were received in the offices of E. A. Cruikshank & Co., Daniel Birdsall & Co., and the De Selding Brothers. It was everywhere agreed that the new year would witness a very considerable expansion movement on the part of office tenants as well as the establishment of many new firms by employees who would find the time propitious for independent venture.

The total number of transactions given below is 54, with considerations given in 8, and amounting to $567,500; corresponding figures for last week were 42, 12, and $1,254,000 respectively.

Business was unusually quiet in the Real Estate Salesroom this week. There were no voluntary sales, and only twenty-three parcels were offered in legal proceedings. Of these five were adjourned, and two withdrawn. In the foreclosure actions, with three exceptions, the plaintiffs were forced to protect their interests by purchase. No. 29 Beekman street, Philip A. Smyth auctioneer, which was offered in partition of the Conner Estate, was withdrawn at $62,000. This property, the last remaining parcel of the estate, has been put up twice before, namely in 1895 and 1897. On the former occasion it was withdrawn by the referee, John H. Rogan, at $67,000; on the second, at $64,000. The power of the referee to withdraw property in the face of a bona fide bid has been questioned. But that the interests of heirs may be well served by the exercise of discretionary power on the part of the referee, was shown last year in the case of another property belonging to the Conner Estate. On June 15, some twenty-six acres in the 24th Ward were withdrawn by Mr. Rogan on a bid of $1,400 an acre. On October 19, of the same year, the property brought $2,425 per acre, making a difference of about $27,400 to the heirs. The Beekman street property, a 5-story brick building in the paper and type-foundry district, is a substantial structure, which can readily be modernized, and, in view of the general improvement in business, will, no doubt, shortly command a price satisfactory to the estate, although the district has not wholly escaped the transitional effects incident to the uptown movement. In the foreclosure sale of the Knickerbocker Realty Co.'s 8-story store and loft building, at Nos. 35 and 37 East 20th street, by Thompson & Pryor, two secondary mortgages aggregating $44,000 and some forty liens amounting to about $35,000, were wiped out, the property going to the plaintiff, Jacob D. Butler, at $198,650. The auction business of the past three months has been far from satisfactory. In October and November some first-class properties were put up at voluntary sale. But the results were so meagre as to discourage further attempts to try the market before the holidays, and December produced practically none but foreclosure events. Inquiry among the leading auctioneers, however, discloses a general feeling that the spring season will be better than any in the preceding three or four years. The professional operators who have been absorbing foreclosure bargains are beginning to dispose of their holdings at private treaty, while the course of events in the private sales' market and on the Stock Exchange indicates a near approach of the time when the investor may be looked for in the Salesroom. This feeling finds practical expression in the announcement for January of several big executors', trustees' and partition sales, notably that of "The Albany," on Broadway, by Geo. R. Read; 144 lots of the Bathgate Estate, by Peter F. Meyer, and 51 Twelfth Ward lots, besides other properties in Manhattan, by William Kennelly. It may also be noted that rumor is busy with estates in the Bronx, that have become ripe for subdivision in consequence of the development of surface transportation and the recent public improvements.

The following properties were withdrawn or adjourned to dates beyond the coming week: 15th street, southeast corner 3d avenue, Wakefield, Peter F. Meyer, withdrawn; No. 87 South street, D. Phoenix Ingraham, adjourned to Jan. 11; Nos. 403 to 407 East 23d street, Peter F. Meyer, adjourned to Jan. 19; No. 39 Avenue A, same auctioneer, adjourned to Jan. 26; No. 2086 11th avenue, Philip A. Smyth, adjourned to Jan. 9.

Peter F. Meyer calls attention in our business pages to another offer of Bathgate Estate lots in the 23d and 24th Wards, which will be made from his auction stand on Tuesday, January 10th. This offering embraces 144 lots on 3d, Washington, Wendover, Webster, Franklin, Bathgate, Brook, Fulton and Arthur avenues, 136th, 144th, 171st and 177th streets and St. Paul's place. The last sale by this estate resulted very satisfactorily to buyers, as we have had occasion to mention several times since when calling attention to the profits made on re-sales. The lots now to be offered contain some of the choicest owned by the estate, and there is very little doubt that they will be eagerly bought. The auctioneer, at No. 111 Broadway, and Turner, McClure & Rolston, attorneys for the executor and trustee of the estate, at No. 22 William street, will supply maps and full information on request.

Wm. Kennelly makes the important announcement that he will dispose at auction of a number of East 12th street tenements and 51 12th Ward lots on January 10th. The sale is in partition to close the estate of William H. King. The tenement parcels are Nos. 323-9 E. 12th street, and the lots are distributed in plots of from 2 to 15 about the ward named. Exact locations, dimensions, etc., will be found in the announcement of the sale on another page, and the auctioneer, at No. 111 Broadway, will furnish maps and full particulars on application. This sale is one of the most important among those arranged so far for the New Year, and it will afford to builders especially a good opportunity for obtaining sites for new operations in a section that is fast closing up.

REAL ESTATE NOTES.

Peter Fuchs, a well known retired builder and latterly a real estate operator, died suddenly on Thursday at his home, No. 77 E. 7th street.

Abram M. Hyatt, second vice-president of the New York Security and Trust Co., who was injured in front of the 5th Avenue Hotel while out wheeling Monday, is improving.

The buyers of the plot, 200x200, on 8th avenue, between 140th and 141st street, were Strauss & Rothschild, and not Rothschild & Strauss, as was erroneously stated last week.

The Board of Estimate has appropriated $3,500 to pay the cost of preparing the foundations for a statue of Washington and Lafayette at 114th street and Morningside avenue.

Taxes remaining unpaid on Jan. 1 will have to pay a penalty of interest at the rate of 7 per cent. per annum from Oct. 3 last until date of payment.

The Board of Public Improvements has passed a resolution instructing Corporation Counsel Whalen to begin proceedings to lay out a street along the line of the Mott Haven Canal. This action was taken upon the recommendation of Mr. Whalen, who, in a recent opinion given to the Mayor, said that the whole subject of the canal could be thus disposed of in a speedy manner. The laying out of this street will necessitate the filling up of the canal. The resolution has now to go to the Municipal Assembly.

CONCERNING REAL ESTATE AGENTS AND BROKERS.

Robert M. Fulton, of No. 503 Fifth avenue, corner of 42d street, is now making a feature of negotiating mortgage loans on New York and Westchester Co. realty. His facilities are good for the dispatch of business. Mr. Fulton's telephone call is 569 38th street.

Chas. Galewski, one of the youngest members of the realty profession, has opened an office at No. 329 Church street, near Canal street, where he will give special attention to selling, leasing and exchanging property.

E. L. V. Cheron & Co. have centrally located offices at No. 54 W. 18th street, close to 6th avenue. They make a specialty of collecting rents. Mr. Louis H. Cheron, the junior member of the firm, was for several years with John H. Dye, and is well known as a successful worker. Their telephone is 2610 18th street.

THE LAWS AFFECTING BUILDING.

There has not been any book on the market containing *all* the laws and regulations relating to building in New York City; yet the need of such a volume is plain enough, because a building, from its foundation to its final demolition, is subject not only to the building law, but to special regulations of the building department concerning passenger elevators, fire-escapes, light and ventilation, and plumbing. There is also a law limiting the height of dwelling houses and another requiring temporary flooring. There are the tenement-house and lodging-house laws, laws relating to the extinction and prevention of fires, and the storing of explosives and combustible materials in buildings. Moreover, there are very important Fire Department regulations which must be observed in the installation of electrical apparatus, and there are, of course, all the regulations of the Depart-

ment of Public Works, concerning Croton water rates and the use of water, the opening and refilling of trenches and restoring street pavements; in addition to ordinances pertaining to the inspection of steam boilers. The architect, builder, building material man and real estate owner must be familiar with these laws and regulations; if he is not, he suffers. They are now all gathered together (with a directory of architects) for the first time in *one volume*, illustrated, indexed and supplied with marginal notes. The price, bound in cloth, is $2.50. "Record and Guide," publishers, 14 and 16 Vesey street.

The Building Trades

MATERIAL MARKET.

The features of the market this week are the advances in certain commodities, due in some instances to increased demand, but for the most part to a stiffening in the prices of raw materials. Trade throughout the market has assumed the quiet condition usual at this time of year. It is estimated that in the recent storms the loss of vessels carrying spruce timber and lath was so extensive that the carrying capacity for the coming year will be reduced 20,000 M feet board measure.

BRICK.—A few belated tows from Newburgh Bay arrived this week, but these are about finished up. Haverstraws, however, have been arriving this week at the rate of about 8 or 10 cargoes a day. Prices are the same as last quotations. Ice is forming and is very threatening, and Haverstraw shippers are making every endeavor to forward their stocks as rapidly as possible. The first zero weather will probably close navigation to Haverstraw, but shippers from that point hope to market at least 20,000,000 brick before that occurs. New Jerseys are in good demand at about $5.75.

LATH.—About 5,000,000 arrived this week, and were sold at prices from $1.95 to $2.00. There are very few, about 3,000,000 on the way, and none are being started. Wholesalers are asking $2.25 to arrive. Freights have advanced 40 cents per M on account of loss of vessels in the recent storms.

LIME.—Holiday week shows a slight slackening in the market for Rockland. Four barges arrived this week and were sold without advance at 75 and 85 cents. There is a moderate amount on the way, and very little here. If the weather permits building operations to progress there should be a very good demand in the early part of next year. The demand for State continues seasonably good, with prices unchanged at 75 cents for common, and 90 cents for Jointa. The outlook for next season is good.

CEMENT.—Prices in Rosendale have advanced to 90 and 95 cents, due to a rise in rail freights. The demand is fair, yards are fairly well stocked as a rule, but some are short. There is a prospect of a heavy demand next season as there has been a great deal of work contracted for and more in view. The demand for domestic Portland has eased up perceptibly in the last month, but prices are steady. The demand for imported Portland has been steadily decreasing during the past few weeks in proportion to the falling off of work usual at this season of the year, but trade is seasonably good at present, and shipments of standard brands are taken on arrival.

GLASS.—The market for glass is usually dull the last two weeks of the year, so that trade at present is quiet with discounts unchanged at 80 for plate, 80-10 for French window, and 80-20 for American window.

PAINTS.—Trade is seasonably dull with prices unchanged.

LEAD.—Although the inquiry is seasonably quiet, prices are firm on account of the stiffening of prices in pig lead. National Lead Co.'s prices at usual terms, f. o. b., New York, for white lead (dry or in oil), red lead, and litharge in kegs are as follows: In lots of less than 500 lbs., 6 cents net; 500 lbs. and over, 5½ cents. Dry white lead in bbls., ½-cent per lb. less than price in kegs. Red lead and litharge in bbls. and half-bbls., ¼-cent less than price in kegs.

OIL.—The market has advanced 4 cents over last week's quotations. This is due to the high price of seed, which is at present at $1.16 for cash, Chicago. The advance is being well maintained, and the market is in a strong natural condition. This has caused considerable buying for spring consumption and a further advance of 2 cents is liable to occur at any time. Prices are 41 cents for 5-bbl. lots and over, and 42 cents for smaller quantities. Boiled oil is 43 and 44 cents, and Calcutta, 54 cents.

NAILS.—The local demand has improved during the past week. Prices are about as last quoted, but show a hardening tendency. Negotiations are going on between the American Steel and Wire Co. and the Wire Nail Association with a view of consolidating and the outlook is favorable for a combination of all the prominent wire nail manufacturers, the object of which is to reduce the cost of manufacture more than to advance prices.

NAVAL STORES.—The market for spirits of turpentine held quiet in actual business, manufacturers being busy settling up accounts, etc., and not desiring to buy except for immediate needs. Holders, however, show no sign of weakening, and offerings were small at 45 cents for machines, some even asking as high as 45½ cents, but, as far as known, no sales were made at the higher price. Values closed firm at 44½ and 45 cents for Southerns, and 45 and 45½ cents for machines. Tar was dull with little inquiry, sellers asking $3.40 for oil barrels; regulars, $1.65@1.70. Pitch, dull and featureless at $1.60@1.65.

LUMBER AND HARDWOODS.—The usual dull season is here and naturally trade in general is quiet. The indications are that with the resumption of business at the beginning of the year, trade will be exceptionally good, there being no downward tendency in any specialty and the general tone of the market favors a stiffening of values. Dry stocks of hardwood in first hands are scarce throughout the country, a condition usual at this time of the year. The spring stocks of hardwoods arrive at the mills in the early months of the year, and there is necessarily a shortage in the winter. It will take 60 days to manufacture, air-dry and ship stocks after arrival at the mills, so that there will be a firmer tone up to the time that the new product begins to materialize about May and June. There are no large stocks anywhere in the country. Yellow pine is in good demand, and prices have a tendency to stiffen. There is a movement on foot to establish uniform prices for the product in the Metropolitan District. White pine maintains its position, but as the manufacturers depend on snow for bringing the logs to the mills, the season has not gone far enough to enable it to be seen what are the prospects for the coming year. Lake Superior stocks have steadily advanced since the enactment of the Dingley bill, and the feeling is that prices will advance further. There is a large volume of business being done in North Carolina pine all the time. Spruce is fairly well absorbed at the advanced prices already noted in this column, there being no opposition to the advance. The mills are full and the probabilities are that they will be taxed to their capacity during the early months of the coming year. Quartered and plain oak, ash and poplar, are all maintaining prices with a tendency to advance. Elm is sought after and contracts are being made for futures.

OF INTEREST TO THE BUILDING TRADES.

A meeting of the Electrical Contractors will take place on Thursday next at the Building Trades' Club, at 3 p. m.

Mr. Cordes, of De Lemos & Cordes, is again at his office, having just returned from a two-months' trip through Europe.

Michael Berstein, architect, No. 145 Centre street, will remove to No. 245 Broadway, Room 25, sixth floor, on the 1st of January.

The Master Painters' and Decorators' Association will meet in the rooms of the Building Trades' Club on Tuesday next at 8 p. m..

Walter H. Pierson and Frank V. Bodine, architects of Asbury Park, N. J., have opened an office in Room 1418 at No. 11 Broadway, N. Y. City.

Percy Griffin, of No. 48 Exchange place, is the architect for the alterations and additions to the Reform Club Building at 27th street and 5th avenue, mentioned last week.

The following have been temporarily appointed inspectors of buildings, in the Department of Buildings Borough of Manhattan: Jas. W. Boyle, Jas. A. Kiernan and James Gough.

John Beverly Robinson was nominated at the last meeting of the Board of Education, as Deputy Superintendent of School Buildings in Manhattan, and Samuel R. Brick, in Richmond. These nominations were referred to the Committee on Buildings.

The Tin and Metal Roofers' Asociation meet on Thursday, at 8 p. m., in the rooms of the Building Trades' Club. The secretary requests that as many members as posible attend the meeting.

Affairs have been quiet in the plumbing trade during holiday week. There is considerable new work in apartments and tenements above 59th street, which, together with the jobbing and overhauling usual in the early part of the year, will keep plumbers busy until the regular season begins.

The Building Department is rigorously enforcing the law requiring master plumbers to register annually. There are several cases in which certified plumbers have neglected to comply with this regulation, and have been reminded of their obligation by the attorney of the Building Department.

The protest of Withers & Dickson,architects of the new Tomb's Building, to which reference was made in these columns last week, was received by the Board of Estimate and Apportionment on Wednesday, and the Board decided to ask Mr. Buck, Engineer for the East River Bridge, to make a report on the matter in dispute.

Edward F. Randolph, of the firm of Randolph & Clowes, proprietors of the well-known brass and copper rolling and tube mills at Waterbury, Conn., died on Sunday, 18th inst., from pneumonia, at his residence No. 12 East 58th street, this city, in the 69th year of his age. The business of Randolph & Clowes will continue under the same management as heretofore.

The annual banquet of the Lumber Trade Association will take place at the Hotel Savoy on Jan. 27. The committee in charge, Messrs. J. D. Crary, A. P. Bigelow and Norris H. Norden, promise an excellent dinner and a good time generally, the program having been arranged with great care. All lumbermen, whether members of the Association or not, are cordially invited to participate. Tickets are $6 each, and may be had from the committee and members of the Association.

TRADE NOTES.

ANOTHER BIG UNDERTAKING.

The Candee & Krekeler Co., one of the largest concerns in the contracting line, have the contract for taking down that much-talked of building—"The Rothschild," corner of Jay and Fulton streets, Brooklyn—in the short space of 24 days, and with their experience and excellent facilities, it is no wonder the undertaking can be accomplished. The material is being carted to their three yards—one at Vesta avenue and Fulton street; another at 1215-19 Grand street, Newtown Creek, and to the main office and yard at Hamilton avenue and 15th street, Brooklyn. At the main yard everything in the building line, either new or second-hand, can be found and their prices are extremely low. The material they are taking from the Rothschild Building is almost entirely new, and some of it is of excellent quality. The Candee & Krekeler Co. are doing an extensive business in both new and second-hand stock and are now the general agents for Long Island and vicinity for the "National" Pyrogranite Fire Brick Co., and keep a full line of their goods on hand. It is well worth the while of any buyer desiring to figure on new buildings to call and see them and secure an estimate, as recently they began quarrying bluestone at their quarries at West Hurley and vicinity, and are ready for contracts,large and small, in the bluestone line anywhere in New York or Long Island.

SECOND-HAND BUILDING MATERIALS.

The firm of Geo. W. Jump & Company, dealers in second-hand building materials, whose New York yards are located at Nos. 154-160 West 26th street, have recently purchased the business and plant of the late Bernard Henrichs located at Nos. 48-54 Greenpoint avenue and Nos. 27-33 Milton street, Brooklyn. With these increased facilities this enterprising firm will be in a position to more thoroughly advance their rapidly increasing business. They have constantly on hand a large and varied stock of second-hand building material of every description, and builders desirous of purchasing goods of this kind will meet with prompt consideration at their hands. Their telephone calls are 2296 18th Manhattan, and 140 Greenpoint.

If so, you ought to have a copy of the real estate man's Webster—Van Siclen's "Guide to Buyers and Sellers of Real Estate." It answers every question you can ask. Send for it. In cloth, $1.00; in paper, 75 cents. Record and Guide Office, 14-16 Vesey street.

Questions and Answers.

DEED SHOULD BE GIVEN.

To the Editor of THE RECORD AND GUIDE:

Please give me a solution of the following and oblige. Also C's course to pursue. A transfers house to B last fall. B holds possession for 3 months after, and records the deed given to him by A. Three months after B transfers house back to A, giving deed back to A that A had given him, but not taking a record in B's name. A does not record deed for second transfer; he is also ignorant of B having recorded deed. Now A sells house to C, he giving mortgage to A for $2,000 second mortgage. There already being a $3,000 first mortgage on property. C records deed and mortgage and pays interest on both first and second mortgages. Now C, after 10 months, finds that B has house still recorded in his name. B has been asked by C's representative for a quit-claim deed, but refuses it, saying go to A. Now what is C's course to pursue?

Answer.—How could B transfer the house back to A, without giving A a deed signed by him (B)? The return to A of the deed signed by him did not transfer the house back to A. A might have supposed that was the legal effect, but it was not. If B had not recorded his deed the record title would be in A, and when A gave C a deed then the recorded title would be in C. But now C's remedy, if B refuses him a deed, is to sue B to obtain a deed from the latter, or else to have the deed from A to B cancelled.—Law Editor.

BROKER'S COMMISSION.

To the Editor of THE RECORD AND GUIDE:

A broker has brought together two parties in a deal whereby a specified time was set to sign the contract and pay a certain sum. The two met on the hour appointed and found, instead of signing a contract, a referee's bid for all parties concerned. The buyer refused to take the property because the agreement was not lived up to. The buyer now stands ready to take the property with a clear title. Is the broker entitled to a commission?

Answer.—I do not know what you mean by "a referee's bid for all parties concerned." But certainly if the buyer refused to take the property, the understanding being that a contract in writing was to be signed, the broker is not entitled to a commission.—Law Editor.

LANDLORD AND TENANT.

To the Editor of THE RECORD AND GUIDE:

Can a landlord obtain a judgment for arrears of rent, while the premises are left in a dilapidated condition, so that snow and rain come through with nearly every storm—the rent of said part is small in proportion to the whole?

Answer.—If the condition of the premises is such that there is what is called in law an eviction the tenant may move out and will not be liable thereafter for the rent, but so long as he remains in possession of the premises, he must pay his rent.—Law Editor.

To the Editor of THE RECORD AND GUIDE:

Can a party occupying a house for a number of years, say, from 1888 to 1896, with a lease terminating in October, and they make a request to have a new lease made out to expire in May, 1897, and then still live on and occupy the house up to Dec. 1, 1898, and then give up the house and request me to be as easy as possible about the rent until the expiration of the lease? Will you please inform when that lease should rightfully expire? Should it be right if it was made out for seven months from October to May, to release itself every seven months again, when the party knowing I leased only by the year, and the leases expired either in May or October?

Answer.—The tenant can be held for the rent until May, 1899.—Law Editor.

To the Editor of THE RECORD AND GUIDE:

A has given B, his agent, a house to let for him; B lets the house, and takes a deposit from C; can C get possession of the house if his reference does not suit A—A said to B that he should take a deposit subject to his approval?

Answer—C cannot compel A to give him possession of the house by reason of the fact that B let the house and took a deposit.—Law Editor.

STREET OPENING.

To the Editor of THE RECORD AND GUIDE:

As the owner of an unimproved lot in the 24th Ward, I have been requested by several attorneys to allow them to represent me in street opening proceedings affecting my property. As my holding is small and capital limited, I hesitate. Kindly inform me if it is necessary of advisable to be represented by counsel in such matters. (2) Are minutes kept of the objections to Commissioners' estimates of assessments for benefits and awards for damages; if so, are these minutes open to public inspection?

PUBLIC SCHOOL.

Hester and Orchard streets.

It you will kindly answer these questions or refer me to some publication in which these and similar questions are answered, you will greatly oblige.

Answer.—(1) It is not necessary. It might be advisable if you can get the attorney to appear for you for a sum you could afford to pay. (2) Yes.—Law Editor.

COMMISSION FOR RENTING.

To the Editor of THE RECORD AND GUIDE:

V, an authorized agent of owners, calls on B in regard to renting him a suite of offices in commercial building; B states he is not prepared, but a few weeks later calls to see the offices with another party, C, and inspects same, getting terms, etc. B calls a second time, with C, who represents himself as a real estate agent, and demands in the event of B leasing offices, the usual agent's commission; V claims the commission, based on his being the first to approach B regarding the matter of leasing said offices, introducing the subject and being authorized agent of owners. Who has the right to commission, V or C?

Answer.—V.—Law Editor.

COMMISSIONER OF DEEDS.

To the Editor of THE RECORD AND GUIDE:

What are the powers and jurisdiction of a Commissioner of Deeds, under the new charter? I recently swore a party to an affidavit, which he informs me was rejected by the persons to whom he handed it, they saying that I could "only take affidavits for New York city," as I "was not registered in the County Clerk's office, but the City Clerk's," I was under the impression that I had the power to perform all acts that a Notary can, except protesting notes and marine protests, and that with the City Clerk's certificate to my authority my acknowledgments, etc., would be accepted throughout the State. Should I be registered at the County Clerk's office as well as that of the City Clerk?

Answer.—You should file your certificate, obtained from the City Clerk, with the County Clerk.—Law Editor.

RECREANT LAWYER.

To the Editor of THE RECORD AND GUIDE:

A buys a piece of property in Brooklyn, N. Y., in September, 1898, all cash. B, his bomb lawyer, neglects to record the deed, gets all his fees from A and others, stole money from lawyers, friends of his, and four weeks ago he made his escape, and no one knows where to find him. Now I would like to know from you if it is safe for the former owner to give A another deed, and if she refuses it, what redress A has to recover said property?

Answer.—The former owner can safely give A a deed. If she refuses, A can, by suit, compel the giving of a deed.—Law Editor.

BUILDING CONTRACT.

To the Editor of THE RECORD AND GUIDE:

A makes contract with B to build a certain house, B giving bond. A makes payment during progress. B stops and is unable to proceed. C and D lien building. (1) Can liens be collected from A, or (2) Can bondsmen finish building, setting liens aside? Contract price for building, $37,000. Amount of bond, $10,000. Payments made $9,000. Estimated cost to complete, including liens, $30,000.

Answer.—The liens cannot be collected from A, unless he owes money to B on the contract. The liens can be set aside by the methods prescribed by the lien law and with the consent of A the bondsmen may complete the building.—Law Editor.

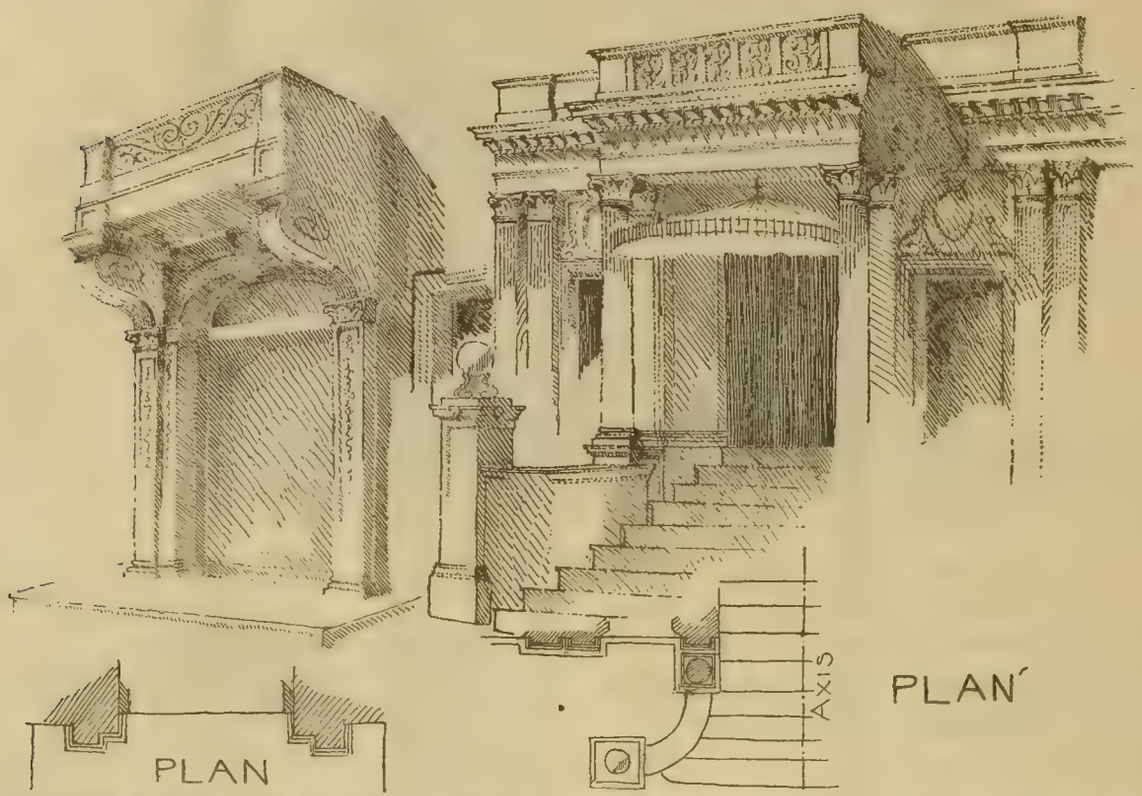
RECEIPT—LEASE.

To the Editor of THE RECORD AND GUIDE:

(1) May I ask again, do the receipts enclosed require stamps? (2) Answer to first inquiry headed "Receipt-Leases." It is no lease but simply a monthly rent receipt.

Answer.—(1)Neither of the receipts require to be stamped. (2) The term "Receipt-Leases" was used to indicate what is the fact that a mere receipt is not taxed by the War Revenue Law; it is only when its terms make it by implication something else that is taxed, a lease for instance.—Editor Record and Guide.

TAXES.



To the Editor of THE RECORD AND GUIDE:

List of Brooklyn properties in arrears for taxes, etc., advertised to be sold in "City" Hall (Brooklyn) December 28th, contains many arrearages back even to 1886: 1. How is this? 2. What is the limit of time allowed? 3. Clear information as to tax sales; what rights are conveyed thereby, and how redeemed, will be appreciated? 4. When will taxes (for Brooklyn) be payable in 1899? 5. When must protests be filed on assessed valuations, and where?

Answer.—1. There must be peculiar circumstances where the arrearages are for so many years. What those circumstances are may be ascertained by inquiry at the office of the Register of Arrears. 2. Section 1027 of the Greater New York Charter: "Wherever any tax on lands or tenements, or any assessments on lands or tenements for local improvements, shall remain unpaid for the term of three years from the time the same shall have been confirmed, and also whenever any rents for water in said city shall have been due and unpaid for the term of four years from the time the same shall have been due, it shall and may be lawful for the collector of assessments and arrears, under the direction of the controller, to advertise the said lands and tenements, or any of them, for sale." 3. The provisions of the Charter on this subject are too voluminous to be published in this column. Sections 1017-1054 give you the information you desire. To answer your question briefly: Under the Greater New York Charter tax sales do not give absolute title. The lands are sold at public auction for the lowest term of years at which any person shall offer to take the same, in consideration of advancing the tax, interest and costs and charges of the sale. The purchaser at the sale gets a lease, on default to redeem, for the term of years which he bid. A mortgagee may redeem from the sale within two years from the date of the same. An owner has six months to redeem after the service upon him of a notice of the sale. The property is redeemed by paying to the collector of arrears and assessments the purchase money which the bidder paid with the addition of 42 per cent. thereon. The sales in Brooklyn, for arrears of taxes prior to 1898, take place under the law as it was prior to the going into effect of the Greater New York Charter. Under these sales an absolute title to the land may be acquired. 4. As soon as the receiver of taxes shall give public notice in certain papers that the taxes are due and payable. On payments made before the 1st day of November, a rebate at the rate of 6 per cent. per annum from the date of payment to the 1st day of December, is allowed. Between the 1st day of November and the 1st day of December,the face of the tax bill must be paid. On and after the 1st day of December, 1 per cent. is added to the face of the bill, and on and after January 1st, interest is charged at the rate of 7 per cent. per annum from the day on which the assessment rolls and warrants shall have been delivered to the receiver of taxes to the time of payment. 5. At the office of the Board of Assessors in the Borough Hall, between the second Monday of January and the first day of May. —Law Editor.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

When the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

Mortgages against 23d and 24th Ward property will be found altogether at the foot of this list.

Mortgages under this head marked with * denote that the property is located in the new Annexed District (Act of 1895).

JUDGMENTS.

In these lists of Judgements the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means jugment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week, and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

Release judgment. James L Hart to David Jenkins. nom

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

JUDGMENTS.

In these lists of judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in the list of Satisfied Judgments.

MURESCO!

It is a permanently hard wall finish. Over plaster it produces soft, even tints, giving the effect of kalsomine, without the flashing, with none of its disadvantages. It does not rub off against the clothing; will not crack nor peel. It will kill suction, and give a smooth, soft, even coat over an old plastered wall that has been patched. It comes in fifteen artistic colors and white.

You may have a color card and full information about Muresco for the asking.

LUMBER.

Appended quotations are based almost wholly upon prices obtained for goods from first hands. Yard rates necessarily range much higher owing to the expenses attending sorting out and grading cargo and even car lots, besides which must be added the cost of handling and carrying until consumers are ready to invest. Terms of sale also prove important factors, and altogether it is impossible to give a line of retail quotations thoroughly reliable in character.
